BUSY SESSION FOR BUYERS.

Hotels of New York Crowded With Southern Buyers.

New York, Aug. 19.—The city is filling up with southern and western buyers. All of the hotels were taxed to their capacity and several had to turn guests away. This is the season for the retail houses throughout the country to buy their fall and winter stocks. The vanguard of the buyers reached the city late Saturday afternoon and a steady stream has been coming in ever since. It was estimated that no less than 500 buyers came in Monday to say nothing of those who reached the city Saturday night and Sunday.

A canvass of the hotel registers showed that the territory covered by the buyers already had extended as far west as Denver and as far south as New Orleans and Galveston. They represent every class of retail trade, and usually the largest houses in their lines, many of which supply the small or houses in their own vicinity.

CHILD'S DEAD BODY FOUND.

Grotesque Discovery Made by a Macon Man in Woods.

Macon Ga., Aug. 19.—Concealed in a clump of bushes on the banks of the Ocmulgee, the body of a small child was found by a man who was crossing from Ocmulgee street to the bridge. Coroner Young held an inquest and an examination revealed that a string had been used to choke the infant to death. Deep cuts were made in the flesh about the neck and strangulation was clearly revealed.

The case has been taken up by the sheriff's force and the police of the city, and an effort will be made to determine who is the guilty person. Whether the child was white or colored it could not be determined. The crime was committed only a short time before the disclosure was made.

CALIFORNIA CITY IS IN THROES OF SEISMIC TREMOR

Milwaukee, Wis., Aug. 19.—The weather bureau here reports an earthquake at Eureka, Cal.,

Chicago, Aug. 19.—A. H. Bell, government weather forecaster at Eureka, Cal., telegraphed the Chicago weather bureau that there had been a heavy earthquake at Eureka, Cal., about 3 a. m., Tuesday. The dispatch contained no mention of damage.

Washington, Aug. 19.—The coast and geodetic survey reported an earthquake Tuesday three thousand miles distant from here.

Chicago, Aug. 19.—The Postal Telegraph company reports that up to 10 a. m., central time, the Postal offices in San Francisco had heard nothing of an earthquake.

Diamond Ring in Bird's Nest.

New York, Aug. 19.—Miss Anna Dodge, of Brooklyn, who is visiting friends in Caldwell, N. J., while in the woods of that vicinity with friends, found a diamond ring valued at \$350. Her attention was drawn to a bird's nest at the foot of a tree and thinking it had been thrown to the ground by some small boy picked it up. In the nest was the ring. It is set with four diamonds of rare brilliancy. A jeweler says it is worth \$350. The nest was that of a black bird and it is supposed the bird carried the ring there.

In Hands of Receiver.

Huntsville, Ala., Aug. 19.—On the petition of Frank Caghris, of Toledo, Ohio, Judge Shelby of the United States court of appeals has placed the long distance telephone company of Decatur, Ala., in the hands of receivers. L. G. Barker, of Louisville, Ky., and Douglas Taylor, of Huntsville, Ala., are named as receivers. The bonded debt of the company is estimated at \$50,000.

NEGROES BARRICADE

Themselves and Are Defying Hundreds of White Men.

RACES CLASH IN TENNESSEE

White Miners Object to the Employment of the Negroes and a Bloody Conflict Seems To Be Imminent in Mine District.

Knoxville, Tenn., Aug. 19.—As a result of the alleged determination of the King's Mountain Coal Company to work negroes in the same mines with white men, a race war that threatens to assume serious proportions is imminent in the mining districts adjacent to Jellico, Tenn.

Seventy negroes, heavily armed, are barricaded in a commissary, which is surrounded by between 300 and 400 white men, and an attack is expected at any moment. Sheriff Huddleston, of Campbell county, has just reached the scene, and is summoning every available citizen to protect the negroes.

The trouble, which has been brewing for several months, broke out, afresh Saturday, when 150 white miners went to the King's Mountain mine and drove twelve negro families from there. They marched the negroes all day Saturday, allowing the women and children to camp and eat what food they carried with them, but forced the men to keep moving. General Manager John Gorman, of the Astras mine, and the count authorities are doing everything in their power to avert trouble, but it is feared that a serious battle will occur before morning.

Sheriff Huddleston has a party of 100 armed men at Astras, the scene of the threatened trouble in the Jellico mining district, and believes that he has the situation well in hand.

The commissary in which the sheriff's party and the negroes are entrenched, is surrounded by a band of miners and mountaineers. There is constant firing among the hills around the camp, but no direct attack on the sheriff's party has been made. The latter, fortified as it is, is strong enough to repulse an attack by a party several times its strength.

Negroes are arriving at Jellico and other towns in a state of terror, some of them having been in hiding, while others camped out.

While no killings have been reported, it is considered possible that negroes may have been slain in the mountains and nothing known of it.

The mine owners are holding a conference in Knoxville but what will it bring cannot be foretold.

IN BIRMINGHAM BY SEPT. 1ST.

A., B. & A. Will Run Trains Over L. & N. Tracks.

Atlanta, Aug. 19.—According to General Manager Alex Bonnyman, of the Atlanta, Birmingham and Atlantic railroad, the Atlanta, Birmingham and Atlantic road will be operating into Birmingham, Ala., by September 15, thereby connecting the last link in this new southern system.

The entry into Birmingham will be effected from Pelham, where the Atlanta, Birmingham and Atlantic crosses the Louisville and Nashville tracks, by a trackage arrangement with the last named road, which allows the Atlanta, Birmingham and Atlantic road to use its tracks between Pelham and Birmingham, and also the depot and storage warehouse of that system in Birmingham.

This accomplished, the Atlanta, Birmingham and Atlantic road will be operating from the Atlantic ocean into Atlanta and into Birmingham with its own trains.

This means that both Atlanta and Birmingham, two of the terminals, will be tapped within sixty days of each other.

For Stealing Liquor.

Macon, Ga., Aug. 19.—The Prisoner, one of the old employees of the Southern Express Company, was held to answer to the state court for alleged theft of four quarts of liquor from the offices of the express company.

THE ALLIANCE IDEA.

Chinese Editor Says Logical Ally is the United States.

Paris, Aug. 19.—Li Sum Ling, the Chinese editor of The China Mail, who originated the idea of an alliance between the United States and China, during the course of an interview Tuesday affirmed that China is the logical ally of the United States, and declared that Germany was not fitted for an alliance with the United States, and that she would be unable to render help in the east. Further, he declared, and alliance with Germany would arouse the hostility of Japan and Great Britain—the most powerful factors in that part of the world.

On the other hand, he declared, China would be able to afford commercial facilities to the United States and in event of war the Chinese army would be sufficient added to the forces of the United States, to overbalance the power of Japan.

In addition, in case Great Britain's treaty obligations forced her to join with Japan, the German anti-English sentiment, Li Sum Ling declared, certainly would lead Germany to throw her sword in the balance and dictate the result of the struggle.

THREE KILLED BY HEAT.

Another Person Attempted to Commit Suicide at St. Louis.

St. Louis, Aug. 19.—Three deaths an attempted suicide, and more than a dozen prostrations were the results of the intense heat that has prevailed over St. Louis. The thermometer registered 95, but the high temperature was broken later by rain that brought cooling breezes.

The attempted suicide was that of Miss Anna Donohue, 26 years of age, who, while temporarily crazed by the heat and attired only in a night gown, rushed from her bedroom to the yard of her home early in the day, built a bonfire of grass and sticks, placed a chair in the center of the flames and sat down to die. She was rescued by two policemen.

AWAITING ARRIVAL OF FLEET.

Visit Will Be Replete With Numerous Festivities.

Sydney, N. S. W., Aug. 19.—Sydney is awaiting the arrival of the American battleship fleet on the tip-toe of expectancy, and the seven days that the vessels will be here will witness a series of entertainments more elaborate than ever before has been given in New South Wales.

The program includes receptions, dinners, balls, garden parties, excursions inland, Australian sports, base ball and foot ball matches; a military review, fire works, theater parties, concerts and a parade.

Forest Fires Still Burning.

Winnipeg, Man., Aug. 19.—Further reports received by the Canadian Pacific railway of forest fires on their property at Vancouver Island indicate that never before in the history of the island has such damage been wrought by fires. Indications are that thus far the timber loss will reach close to five million dollars and the fires are still burning. Settlers living in isolated parts have been driven into the fruit farming districts where the cleared land affords an element of safety. The mountain sides are swept bare. Many hundred head of cattle have been destroyed.

Killed Girl and Self.

Altus, Okla., Aug. 19.—Alice Carter, 11 years old, at her home, refused to marry Charles Fisher, a farmer, against her parents' wishes, whereupon he drew a revolver and shot and instantly killed her, and then committed suicide his body falling up on her body in her parents' home. Both were shot through the heart. Fisher left a note which showed the double tragedy was premeditated.

Man Is Killed.

Atlanta, Aug. 19.—A horrible death occurred when Cornelius W. Barnes, 19 years of age, a resident of Ingleside, Ga., and an employee of the Georgia railroad, was run over by a Louisville and Nashville freight engine 60 yards from the eastern end of the Union depot and only a few paces from the Central avenue crossing. The body was removed to an undertaking establishment.

PENALTY FOR WRONG DONE

Counsel in Divorce Action by Husband Is in New York City—Action Toward Compelling Return of Children to Wife.

New York, Aug. 19.—New light is expected to be thrown upon the Bay-side Yacht Club tragedy at the inquest held Wednesday evening at Flushing, L. I., into the death of William F. Annis, who was killed last Saturday by Captain Peter C. Hains, Jr., U. S. A. Dr. Henry Houghton, the physician who was at the side of Annis when he lost consciousness, was quoted as intimating that Annis, in his last moments, acknowledged that he was paying with his life for a wrong he had committed.

"He told certain things to me," Dr. Houghton is quoted as saying, "which no one else heard and which I have told to no one. When I am called on to testify before the coroner's jury I probably will make it public."

That there was absolutely nothing in the attitude of either of the Hainses to indicate that they were laboring under any delusion or any great excitement at the time of the shooting was asserted by the doctor.

It was learned that Frederick L. Norton, of Boston, Mrs. Hains' counsel in the divorce action brought by her husband would visit this city in reference to his client's affairs. It was understood that Mrs. Hains intends to take some action toward compelling the return of the children to her.

COL. WETMORE TALKS.

He Asks All Editors to Raise Funds for Committee.

Chicago, Aug. 19.—Editors of every democratic and independent newspaper throughout the United States will be appealed to by the democratic national committee to start subscriptions for the democratic campaign fund in their newspapers. This plan, which has been made known by Colonel Moses C. Wetmore, chairman of the finance committee, is distant from the effort already inaugurated by the national committee to obtain money through financial representatives under the direction of the national committeeman in each of the states of the country.

Must Show Cause.

Montgomery, Ala., Aug. 19.—Judge Sayre, of the Montgomery city court, has issued an order to Secretary of State Julian deVries him to show cause why he should not recognize the Davidson or anti-Roosevelt wing of the republican party in Alabama as the regular organization instead of the Thompson faction, which stands for the administration. The order was made on application of James H. Crawford, and John H. Standiford, leading republicans. The court directed the secretary of state not to certify the Thompson ticket for the election in November.

BRIEF DISPATCHES.

Dr. Henry Hopkins, former president of Williams college, is dead of pneumonia at Hatterdam, Holland.

James M. Leo, of East St. Louis, Ill., is dead of injuries received in a foot ball game nearly seven years ago.

Eugene W. Chaffin, of Chicago, has been notified of his nomination as the prohibition candidate for the presidency of the United States at Chicago, Ill.

Bishop Sylvester D. Tuttle of St. Louis, presiding bishop of the Episcopal church in America, with Bishop Frederick D. Johnson, of South Dakota, have returned from London.

HIGH SPRINGS IS MUCH AROUSED

Good Citizens of the Town Weary of
Reign of Thugs.

FATHER OF SUSPECTED PARTY

Says Letter Published Is Attempt of
Guilty Party to Place Guilt on His
Son, and That He Is Determined to
Solve the Mystery.

(Jacksonville Metropolis, Aug. 18.)

Thoroughly aroused over the manner in which the reputation of their home town has been blackened by the operations of a thieving and murdering gang of thugs for years past, the good people of High Springs are doing everything in their power to have the gang broken up and to bring to justice the murderer or murderers of W. H. Moreland, the traveling man. The State is also aiding the movement in every way possible, and there is hope that at no distant date the High Springs gang will be made a thing of the past.

Prominent Citizen Here.

W. A. Bexley, justice of the peace at High Springs, and father of Will Bexley, the young man arrested with Truby Osteen on suspicion of having murdered Moreland, visited The Metropolis office this morning and asked to be shown the original of the threatening letter published yesterday afternoon, and his request was granted. Mr. Bexley, who is one of the best-known citizens of High Springs, was somewhat perturbed over the fact that the writer of the letter stated that "Billie," meaning his son, had killed Moreland, and declared the letter was nothing less than an attempt of guilty parties to place the stigma of guilt on his son.

"There is not a man living," said Mr. Bexley, "who is as deeply interested as I in learning who murdered Moreland, for my son has the charge hanging over his head. I am working on the case to the very best of my ability, and will not rest until my boy is proven innocent and the real murderer discovered. The good people of High Springs are also aroused on the subject, and will do everything possible to solve the mystery."

Regarding the recent fire, to which the anonymous writer alluded, Mr. Bexley stated that he was the heaviest individual loser of the town, his loss amounting to nearly \$5,000. He hoped to get some clue from examining the handwriting in the anonymous letter, but was unable to do so.

Publication of the anonymous letters in The Metropolis has served to arouse the State more thoroughly than ever, by reason of which it is believed the murderous gang will eventually be done away with, by course of law.

NEWS OF CITY AND COUNTY CONDENSED

EXCURSION—Jacksonville and return from Gainesville \$1.50 via Seaboard, August 24th. Tickets good returning on or before August 27th.

L. J. Mixson returned yesterday from Silver Springs, where he has been for several weeks in the hope that the springs would prove beneficial to him.

Mrs. S. A. Hudgins has returned from a visit of several days to Jacksonville, where she was the guest of Theo Hudgins and other relatives in the metropolis.

Mesdames W. D. Dickinson and W. T. Zetrouer left yesterday for Alachua, where they will visit for the next few days before proceeding to Worthington Springs.

Coite W. Hill of Winston-Salem, N. C., has arrived in the city to accept a position with The G. W. Hyde Company. Mr. Hill comes here from Birmingham, Ala., where he held a similar position for some time with the Fred Marx Dry Goods Company, one of the largest dry goods stores in the South.

Attention is directed to the change in the advertisement of Geo. W. Daventport, the practical piano man, who is representing Ludden & Bates and the Abrams-Hill Company of this city. Although young in his line, he is considered one of the most competent workmen on the road and has good houses to back him.

Joseph Shuford, for many years a resident here, being partially reared in this city, is meeting his large number of Gainesville friends, who are glad to see him. He is now making his headquarters in the State metropolis and says that there is still a great deal of building going on which gives the carpenters about all the work they want.

Disagreeable at Home.

Lots of men and women who are agreeable with others get "cranky" at home. It's not disposition, it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

Found In a Well.

Valdosta, Ga., Aug. 19.—Mrs. Peter Phillips, 60 years old, wife of a prominent farmer of Hanson, Fla., committed suicide Tuesday. She was with her daughter and under treatment of physician there. When the daughter awoke she found her mother absent from the room. A search resulted in finding her mother in a well with her neck broken.

MANY TONS OF HAY NOW BEING SAVED

This Commodity Was Formerly Not
Gathered in this County.

SAVING OF THOUSANDS YEARLY

The Farmers Are Gradually Getting
More Independent in the Matter of
Forage, and Truckers Make Good
on This Crop—Money Saver.

The weather for the past week has been such that the farmers have succeeded in saving many tons of hay, which was for many years allowed to lay in the field and waste.

Until only a few years ago this item of expense to the people who had stock to care for was not given the attention that it is now receiving, but new and modern machinery has been added to the farms and large numbers of the people not only cut and sell the hay loose, but are provided with means for baling it and placing it among the merchants, where they receive a fair profit on their labors as well as good remuneration for their crop.

The past few days has witnessed an unusual large amount of the loose material being hauled to the city, and should the favorable weather continue several thousand dollars worth will be cut before the crop is too old and far advanced.

That the farmers could not have seen this long ago has always been a mystery, but at last it has been discovered and more of the product is being gathered each year.

A CLEAN, COOL SCALP.

Parisian Sage Stops All Odors and
Keeps the Scalp Cool and Clean.

Almost everybody nowadays knows that Parisian Sage, the invigorating hair restorer, is guaranteed to cure dandruff, stop falling hair and itching scalp in two weeks, or W. M. Johnson will give you your money back.

But you ought to know more about this marvelous hair grower. You ought to know that in five minutes after an application, no matter how hot the weather, your head will be as cool as a cucumber.

You ought to know also, that it kills all odors which arise from the excretions of the scalp, which are particularly strong in summer-time.

Everyone ought to have a bottle of Parisian Sage on hand, because it is such a pleasant and exhilarating hair dressing.

Ladies use it because they know it makes the hair beautiful, silky and luxuriant. Here's what a New York woman writes:

"I have used Parisian Sage two weeks only, yet in that time I find my hair has wonderfully increased in beauty, thickness and luxuriance. But what surprised me most was the disappearance of all dandruff. It pleases me to recommend such an efficient remedy to all my friends. Gratefully yours, Mrs. Maud Hager, 617 West 136th St., New York City."

W. M. Johnson sells Parisian Sage at 50 cents a large bottle, or you can get it direct by express at the same price, all charges prepaid, from Giroux Mfg. Co., Buffalo, N. Y.

PRESIDENT TISON GIVES BAND'S VIEWS

Was Away on Very Important
Business Engagement.

A CITIZENS' ORGANIZATION

Is Glad and Willing to Lend Assistance to Citizens Generally, and Hopes to Still Merit Their Appreciation.

G. B. Tison, president of the Gainesville Brass Band, gives the views upon the recent controversy between the band and the base association in regard to their going out to furnish music during the game, which sets the matter before with all concerned:

Editor Sun: In your issue of last 16th an article, "The Band's Reasons," appeared, stating why the band did not appear on Thursday, August 13, the day Palatka run excursion here.

The facts are these: Mr. Davis and me if the band would come out, a question was put before the band and every member voted in favor of it loud and strong. It was our intention to lend our service to the entertainment of the Palatka people, but owing to an important business engagement—which afterwards came up—Mr. Abrams, our director, to be out of town Thursday. We thought we could not make a credit showing without Mr. Abrams, as all depend so much on him, so I thought it best not to come out. As the band being a private organization, that's a mistake. In the first place, we prefer having it a town organization for mutual benefit, and because that, the boys that belong to the band are not high-salaried men, it would be out of the question to conduct it as a private organization. The band was organized the first of March and has existed on remarkably small fund since that time. Our band room has not cost anything, through the kindness of some of our good citizens, the electric people donate half of the light and Mr. Abrams has received a little compensation for his services. The members of the band are assessed fifty cents a month, and the proceeds from the band and 'Lean' ball game, and one dollar from which we received dollars, is the extent of our income.

When we organized it was our intention to give Gainesville one of the best bands in the State, and if the people of Gainesville will give us assistance we will have it. If we can't say or do something good, it alone.

EASY TO MOVE

Nothing is more exasperating to the housewife than a bed which is hard to move. This special thought in mind, the BERNSTEIN BEDS are all equipped with large-size, easy-running castors which allow the bed to be moved easily and with no danger of damage to the floor, rugs or matting. The rollers are made of genuine lignum vitae—the hardest wood that grows—shelved and polished.

The Bernstein Attachment.

The Bernstein is the original three-piece bed.

The Bernstein Attachment (covered with patent) holds the side rails or springs to the foot and head. Very simple in principle, yet holds the bed steady and firm. Joints can not rattle or shake. Head and foot stand perfectly erect and solid. Easily and quickly detached. In half a minute the BERNSTEIN BED can be taken apart without tools or hammer—just hands alone. Any woman, any man can do it.

This is the attachment that makes the only practical three-piece bed made.

It is a remarkable fact that a full-sized Bernstein Bed—either Enamelled Brass—will sustain an actual weight of twenty-five ordinary persons, or nearly two tons. This extreme strength, with absolute rigidity, makes the Bernstein Bed an article of household utility that will last a lifetime—can be handed down from generation to generation.

ADOPT RESOLUTIONS.

Methodist Sunday School Take Action on Departure of Mrs. McBeath.

The members of the Sunday school of the First Methodist church met and adopted the following resolutions on the 16th inst., relative to the departure of T. F. McBeath and family as follows:

Whereas, our Sunday school will sustain a serious loss in the removal of Mrs. T. F. McBeath and her excellent family, who are to leave in a few days for their new home in Columbus, Mississippi; therefore be it

Resolved, First: That we hereby express our high appreciation of the faithful service of Mrs. McBeath as teacher of the large primary class in our Sunday school. The little children have learned to love her very much, and many lessons of truth have been imparted that will brighten their lives through all the future years.

Second: That we tender to our young brother, Tom McBeath, our thanks for his faithful work as secretary of our school.

Third: That while our Sunday school and church will suffer a very great loss in the removal of these efficient workers from the community, we do sincerely hope they may be as useful in their new field as they have been with us.

Fourth: That these resolutions be recorded in our minute book, that a copy be presented to the family, and the city papers be requested to publish them.

EXCURSION BIG SUCCESS.

Oak Halls Had Large Crowd of Rooters Accompanying Them.

The Oak Halls departed yesterday morning for the battlefield of Fernandina, with a large and enthusiastic crowd of local rooters, which was largely augmented by people from Archer and all along the line.

The train left this city with twelve coaches filled, but a large percentage, fully one-half, were colored people who simply went along to be on the excursion train.

From Gainesville proper there were about one hundred and fifty tickets purchased, and the greater proportion of this number were white people, including many ladies.

Was Not Employed by Mrs. Pitts.

Mrs. T. W. Pitts desires that The Sun announce that she did not have the colored man, Robert Simmons, employed to do the work for her when she was moving, but that he was a sub-employee for one Carter, and both she and her daughter did a great deal of the work of the old darkey to relieve him, as she at once saw that he was unable to perform the duties that the contractor had mapped out for him. We only published the report as it was given, and fail to see wherein it was any reflection on the lady.

Archer Victorious.

In a hotly contested game at the above place yesterday between the Waldo team and the Archer swatters the latter won by a score of 19 to 9. The attendance was large for the little town, and Waldo had plenty of company along with them to cheer them up.

HIS "UMPS" PUT IT TO US WEDNESDAY.

Fernandina Sports Have "Strings to Their Long Green."

M'LEOD'S FIELDING A FEATURE

Both Teams Put Up Brilliant Fielding Game—Umpire's Decisions Made Things Bad for Watson—Small Crowd Turned Out to See Game.

Before a small and unenthusiastic crowd of fans the Fernandina team whitewashed the Oak Halls yesterday afternoon by the score of 1 to 0.

The game was one of the fastest ever seen on the Fernandina grounds, and both teams fought stubbornly from start to finish. Spectacular plays were numerous on both sides, but the Oak Halls carried off the fielding honors by their fast and snappy plays. Fernandina scored their only run in the second inning, but the phone message we received at this office did not state how the tally was made.

It was a pitcher's battle from the time the game was called and the two fingers pitched brilliant ball all through the contest. Walker had a shade the better of Watson, as he let the Oak Halls down with four stingy hits and issued no passes. The umpire's decisions were undoubtedly against Watson, as he is credited with walking four men. He only allowed Fernandina five hits, which is one more than Walker gave. Watson fanned four men, while Walker whiffed ten.

McLeod's fielding was the feature of the game. He made the spectators sit up and take notice when he pulled off a sensational catch. His performance around second base would have made a big leaguer look ashamed of himself.

The Fernandina sports evidently were scared of the Oak Halls, as they were not inclined to wager any money on the game, not even a small amount. But after Fernandina had scored they loosened up a little, very little, too.

The Score by Innings.

Fernandina. 0 1 0 0 0 0 0 0—1
Oak Halls. 0 0 0 0 0 0 0 0—0

Batteries—Fernandina, Walker and Bowen. Oak Halls, Watson and Miller.

Struck out—By Walker 10, by Watson 4.

Base on balls—Off Watson 4, off Walker 0.

Hits—Off Walker 4, off Watson 5.

Time of game—1:20.

FANATORIALS.

We lost because—we lost.

Cheer up, we can't win all the time.

We dare Fernandina to play in our yard.

No, there were no home runs on our side.

Nop, it wasn't the "spitter" that beat 'em.

Take Dr. Davis' blue pills for that sour look.

Wonder if they didn't run some "ringers" in against us?

Now we'll sing (real low) "Show 'Em the Way to Play Ball."

Our boys put up the game of their lives, even if they did lose. There'll come a time some day.

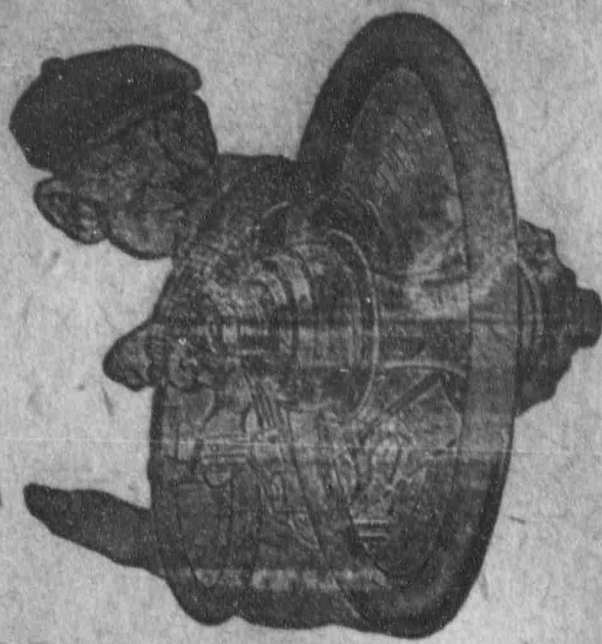

McLeod never fails to carry off the fielding honors on the road. McLeaney wants to see you, Mack.

Are YOU Being "Hunted?"

One of today's want ads. may be hunting you—ransacking the city for you. It may have a message for you of urgent personal importance—one that, when you get it, and heed it, may change the immediate currents of your activities, of your interests—may even place around and about you new environments, new associates; may give you an entirely new start in a business way.

Isn't it worth while to try to find out whether this may not be true—today, tomorrow, or very soon?

To prove to the United States Government that the Arkansas river is navigable and that the stream would prove a valuable waterway with a little dredging, the citizens of Muskogee, an Oklahoma city which has grown from 4,000 population four years ago to 25,000 at the present time, raised a sum of \$10,000 by public subscription and built the steamer "City of Muskogee" to navigate the stream.

Two fires occurred in Perry Sunday night, the first occurring soon after dark and consumed the printing plant of The Taylor County Herald, together with the building and a vacant store adjoining. The printing plant was partly covered by insurance. The other was a vacant dwelling owned by H. M. Sutton, valued at about \$1,000, and was a total loss. Both fires are thought to be of incendiary origin.

ARE WE VERGING ON A RAILROAD DICTATORSHIP?

Mr. Harriman, says The Financial World, jumped in at the critical moment and saved the Erie. His voice now in the road's affairs bears the commands of the master. Before he left for Oregon on a short vacation he did a little more rescue work, helping the Goulds to save the Wabash by providing, through a syndicate, the cash to redeem \$8,000,000 notes of the Wheeling & Lake Erie that the Wabash guaranteed. Mr. Harriman has said he did this without any ulterior motives and to save a bad situation. But those who know Harriman do not exclude from their opinions about this saving of a bad situation that Harriman exacted his price. For that matter, he has a perfect right to do so, and there can be no reasonable objection to whatever terms he made to extend to Gould a helping hand, for there was no pressure brought to bear upon him, except to be saved from another railroad receivership, this time for one of his principal railroads. Mr. Gould could either accept or turn his back on the proffered assistance. It was entirely left to him.

The ascendancy of Mr. Harriman to the position of the first railroad man in this country, however, brings forward a problem serious enough for deep consideration—the problem whether the concentration of his supreme power over the affairs of our biggest railroads will not lead to a dictatorship of the principal industry of this country by a single man.

Is it not worth while to speculate on what the outcome might be? Mr. Harriman is a type of man after the fashion of Roosevelt—virile, masterful, and when set in his views will not brook any opposition. Where Roosevelt has wielded the big stick in politics, Harriman will swing a mailed hand in railroad affairs.

That this power is now already almost superhuman is apparent, when the roads in which his word is law are considered. Through the Union Pacific, Southern Pacific, Baltimore & Ohio, Erie, Atchafalaya, Delaware & Hudson, Illinois Central, he already directly controls over 36,000 miles of the 200,000 miles of railroads in this country. His close affiliation with the Standard Oil interests gives his voice power in the affairs of the St. Paul, Pennsylvania and the Chicago & Northwestern, with an aggregate mileage of over 25,000 miles, and indirectly through them in the Omaha, Long Island, New York, Susquehanna & Western, Norfolk & Western, Vandalia, Northern Central, Grand Rapids & Indiana, West Jersey & Sea Shore, and Pan Handle, with more than 10,000 miles. With the Goulds as satellites he will preside over the following roads: International & Great Northern, Missouri Pacific, Wabash, Wheeling & Lake Erie, Western Maryland, Western Pacific and Denver, Rio Grande, comprising nearly 24,000 miles.

Mr. Morgan, it is understood, has settled his differences with Harriman, and the two are now working harmoniously. Morgan is the only man whose stature in railroad affairs approaches the Titanic proportions of Harriman. He dominates in the policies of the following roads: The Vandalia Lines, the Hill roads, Atlantic Coast Line, New Haven, Boston & Maine, Boston & Albany, Reading, Evansville & Terre Haute, Ontario & Western & Southern Railway, with a total mileage of 60,000 miles.

It can be judged from the above that Harriman directly and indirectly shapes the policy of railroads controlling 95,000 miles of roads (nearly one-half the total mileage), and Morgan 60,000 miles; the two together, indi-

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENNY & CO., Sold by druggists, 75c. Toledo, O. Take Hall's Family Pills for constipation.

rectly or directly, have the last say in how to run 155,000 miles of the 200,000 miles of railroads in this country. Outside of these two financial Colossuses there are no important railway systems except the Rock Island group, which, unless its financial position is considerably strengthened, is liable to be gobbled up by either one of them.

Imagine the power these two men can wield if they work together like lambs! The destinies of an army of nearly 2,000,000 railroad operators, dependent upon them are in their hands—a balance in the voting power more than enough, if they exercise their influence, to swing any Presidential election or carry any doubtful State.

The new order of things, "harmony of interests," which can only exist between these two giants, for there are no others, may, for the moment, have a pleasing ring; but might there not be concealed under this dulcet chime the danger of a financial oligarchy—dangerous in concentrating in one hand control of vast wealth which could be exerted to create policies vitiating to a nation's life and dangerous in another way of congesting on one man all the furious shocks of a panic?

The world's history has shown that the reigns of dictators have been short and their overthrow violent. Caesar was assassinated; Napoleon was exiled; Cromwell was fortunate enough to die soon. These men ruled with the force of their brute strength. In this commercial age it seems we are verging on a dictatorship over our railroads by the science of massing wealth instead of armies to execute an imperial will. Is such a power beneficial to Republican institutions?

It is certainly a very interesting problem—one in which the student of economics will find plenty of room for serious reflection.

Struck Down By Lightning.

Columbus Ga., Aug. 19.—In the midst of an electrical storm in Phenix City, Ala., Mrs. Elie Lawrence and Miss Mamie Rutledge, living opposite each other on Fifth street, were severely shocked. Medical aid was secured and both ladies are recovering although still suffering from effects of the shock.

Thousands Have Kidney Trouble and Never Suspect It.

Prevalency of Kidney Disease.
Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who content themselves with doctoring the effects, while the original disease undermines the system.

What To Do.
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

MEN AND WOMEN.

HE SOUGHT DEATH.

The Unfortunate Napoleon III. at the Battle of Sedan.

Sarah Bernhardt mentions in her memoirs that Napoleon III. had the horses shot under him at Sedan. She having thrown doubt on her statement and denied that the emperor was in personal danger at the time. Dr. Verly, son of the late colonel of the Cent Gardes, gives what he affirms to be the authentic account of the unhappy sovereign's persistent attempts to court death when he saw that defeat was unavoidable. On Sept. 1, 1870, at 6 o'clock in the morning, Marshal MacMahon, returning wounded on a Bazillies. Napoleon III. realized the situation was desperate. He slowly out, depressed and thoughtful under a hall of shot. During an hour he inspected the positions. But when he saw that the emperor's court was killed a few feet away from the emperor. The latter, deliberating seeking death, alighted, ordered his escort to remain behind an embankment and walked up to a cemetery on a height, where he stayed for another hour, exposed to fire. He mounted again and rode to another part of the field. General de Courson and Captain de Treceason were dangerously wounded by his side, but not a bullet hit him. The emperor at last seemed to despair of meeting his death as he sought and rode back to Sedan at noon. The town itself shells fell thick, and while the emperor was riding with his escort up the Grand Rue one of the Cent Gardes and killed the horse of two aids-de-camp. Napoleon III. looked on stolidly, understanding perhaps, that it was not his fate to die action. The story that he had his horses killed under him is, therefore, not correct. But there is no doubt that the unfortunate emperor, beaten and ill, a pathetic and tragic figure, did liberally seek death on the field, to escape the disgrace of Sedan which he foresaw.—Paris Letter.

A SERPENT STORY.

Terrifying Experience With a Deadly Lancehead.

The Paris Eclair tells a blood curdling serpent story, the scene of which was the island of Martinique and the dramatic personae Sergeant Legrand and Private Durand and the snake, a deadly lancehead.

The soldier had been punished with a night in the cells for some trivial offense, but as the night was very hot the sergeant had left the door open. The morning at 5 o'clock Legrand went to wake his prisoner and, to his horror, beheld a lancehead snake coiled upon the fast asleep on the man's breast.

The sergeant did not lose his presence of mind. He stole noiselessly away, ran to the guard room and, followed by all the men on duty, returned to the cell with a bowl of milk and a tin of tallow. Placing the bowl of milk at the entrance to the cell, the sergeant began to play the "Blue Danube." It is needless to remark that the weakness of the lancehead is milk and music. The serpent, which was a six foot specimen, awoke, glided from the soldier's body toward the bowl, but it had not sooner buried its head in its beloved drink than ten cudgels descended upon it with terrific force, killing it outright.

The soldier Durand, who was in the swoon, was taken to hospital, where he lay for many days on the verge of madness. He finally recovered and related his horrible experience—how he had awoke in the middle of the night as the serpent was coiling itself on his bare breast and how he had lain there in an agony for hours, not daring to move a muscle.

Durand was sent back to France as soon as he had sufficiently recovered. The only trace of his terrible experience, adds the Eclair, is that his hair is now snow white.

Love's Young Dream.

Another case of the bad boy ruining love's young dream.

Malate girl and her Romeo sat in the proximity on the couch in the dining room lost to the world. They were brought back from Eden by her brother, who, like many of his kind, makes it a practice to butt in at the wrong time. He walked into the room, planted himself in front of the young man and asked:

"Was you ever tied to a fish line?"

"I certainly was not," was the reply.

"Well," responded the boy, "I can tell you last night that you'd make a good sinner."—Manila Gossip.

In One Lesson.

He—Your sister said she couldn't dance.

She—Well, can she?

Yes; I made her. We hadn't been on the floor a minute when I stepped on her foot. You just ought to have seen her."—Yonkers Statesman.

Misnamed.

Towne—Why do you call your Fetherbrause "Cholly"?

Noah.

Brown—Yes, but that's his name.

Private. Noah had some corn in his out of the rain.—Philadelphia

BERLIN BEER HALLS.

Where One Must Display Great Formality and Preciseness.

Berlin is organized for eating and drinking, and so are the Berliners organized for it. Scattered all over the city are enormous places where food is served, wine halls where only wines are served and beer halls which deal in beer alone, some of them most respectable and some not so impeccable. It is the rule that it is perfectly proper to take your mother or your wife or your sister to a beer hall or a wine hall that is frequented by the officers of the army. They go only to the proper ones—publicly.

The etiquette of these places is most formal. If the hall is crowded and tables are scarce, before you sit down you draw your heels together and make a military bow to everybody sitting at the table you select; then also you raise your glass or stoil to those at the table when your refreshment is served.

On leaving you bow all around again, or the other people at the table bow if they leave before you do. The American way of asking the others at the table for permission to sit down is not ceremonious enough for the Germans, who are the most formally polite people in the world.—Samuel G. Blythe in *Everybody's Magazine*.

A FAMILY MIX.

The Story as It Is Recorded on the Tombstones.

In the early part of the last century there lived in an old New England town a Mr. Church, who, in the course of his pilgrimage through this vale of tears, was bereft of four wives, all of whom were buried in the same lot. In his old age it became necessary to remove the bodies to a new cemetery. This melancholy task the much bereaved widower undertook himself, but in the process the bones of the lamented quartet became hopelessly mixed. Frighting himself on possession of a New England conscience, Mr. Church would not, under the painful circumstances, permit the use of the original headstones, but procured new ones, one of which bore the following inscription: "Here lies Hannah Church and probably a portion of Emily." Another: "Sacred to the memory of Emily Church, who seems to be mixed with Matilda." Then followed these lines:

Stranger, pause and drop a tear,
For Emily Church lies buried here,
Mixed in some perplexing manner
With Mary, Matilda and probably Han-
nah.

The Star Arcturus.

It is probable that the star Arcturus is one of the six greatest of all the stars in the sky. Notwithstanding its brightness, it is so far away from us that it is not displaced in position in the slightest measurable degree, as we change our position 186,000,000 miles in our annual journey around the sun. Could we be placed midway between Arcturus and our sun we would receive thousands of times more light and heat from the star than from our sun, and this notwithstanding that the star's radiation is smothered by a dense blanket of metallic vapors. In spite of its immense distance the star is drifting slowly in a southwestward direction over the face of the sky, its motion changing its apparent position by an amount equal to the diameter of the moon in the course of about 1,000 years. So great an apparent motion must indicate an enormous velocity in space.—New York Press.

Peppermint and Tobacco.

If you have a boy who has begun smoking too early and whom you wish to cure of the habit, feed him peppermints. Dr. O. Clayton Jones of Silverton, England, writing in the London Lancet, is authority for this simple cure. Dr. Jones writes: "To break the smoking habit in a youth there is nothing better than peppermint drops. He cannot smoke with a 'bullseye' in his mouth, and even for some time after it is dissolved tobacco will not blend kindly with the taste that remains. Socially the cure may seem worse than the disease, but from a medical point of view the sucking of peppermints is far less harmful. A common 'bullseye' will prevent smoking for nearly an hour, so the amount of sweets used need not be great."

The Clock Was Wrecked.

Biway—Use an alarm clock nowadays? Jigups—No; never tried one but once. Biway—How was that? Jigups—Well, you see, the first time it went off I didn't exactly know what it was, and so I said, "Oh, for heaven's sake, Maria, shut up!" Maria happened to be awake, and—well, that is how it was.—Liverpool Mercury.

Chivalrous Chicago.

In Chicago more than in any other place is woman regarded in the light of a thing of beauty and a joy forever. There is hardly a man in Chicago who does not esteem feminine loveliness as something beyond price—something to live for, to strive for, to suffer for and if necessary to die for.—Chicago Inter Ocean.

THE "LAST SUPPER."

Singular Story of the Masterpiece of Leonardo da Vinci.

Moldering away on the wall of the old monastery in Milan, Italy, hangs the famous "Last Supper" of Leonardo da Vinci. Like every masterpiece, the painting required many years of patient labor, and as a result of that labor it is perfect in its naturalness of expression and sublime in its story of love. In addition to these qualities, it has an incident in its history that contributes not a little toward making it the great teacher that it is.

It is said that the artist, in painting the faces of the apostles, studied the countenances of good men whom he knew. When, however, he was ready to paint the face of Jesus in the picture he could find none that would satisfy his conception. The face that would serve as a model for the face of Christ must be dignified in its simplicity and majestic in its sweetness. After several years of careful search the painter happened to meet one, Pietro Bandinelli, a choir boy of exquisite voice, belonging to the cathedral. Being struck by the beautiful features and tender manner that bespoke an angelic soul, the artist induced the boy to be the study for the painting of the face of Jesus.

All was done most carefully and reverently, but the picture was as yet incomplete, for the face of Judas was absent. Again the painter, with the zeal of a true lover of his art, set about in search of a countenance that might serve for the face of the traitor. Some years passed before his search was rewarded and the picture finally completed. As the artist was about to dismiss the miserable and degraded wretch who had been his awful choice the man looked up at him and said, "You have painted me before." Horrified and dumb with amazement, the painter learned that the man was Pietro Bandinelli. During those intervening years Pietro had been at Rome studying music, had met with evil companions, had given himself up to drinking and gambling, had fallen into shameful dissipation and crime. The face that now was the model for the face of Judas had once been the model for the face of Christ. — Brooklyn Eagle.

A LOST JOKE.

Would Be Imitator of a Witty Man Made a Ludicrous Finish.

Congressman Quarles used to tell this: "I was a guest of a leading banker at dinner, one of your New York giants of finance, who had invited nearly a score of us to eat a bit, drink a bit and swap notions. Everything was lovely until the fifth course. The waiter was bringing in what appeared on the menu as 'langue fumee aux episcars,' what we common old roustabouts call smoked beef tongue with spinach—and my favorite dish. He tripped at the door and spilled the tongue and greens on the carpet. The host, equal to the occasion, relieved us all, especially the waiter, by saying jovially: 'There's no harm done, gentlemen. 'Tis merely a lapsus linguae.' It was about the cleverest play of words I ever heard."

"Among the guests was a Broadway merchant, up from the gutter, worth about \$3,000,000 and proud of his vocabulary, which was not unlike Mrs. Malaprop's," continued Quarles. "He shook with merriment at the banker's wit. The happy effect induced him to give a dinner the following week, with about the same guests, and, as I happened to learn afterward, he had directed his servant to let fall a piece of roast beef on the floor. The servant faithfully performed his part. Down went a splendid first cut, weighing about fifteen pounds, the delicious juices spattering everywhere. We all felt hurt at the accident. Some even groaned. 'Be not uneasy, my friends,' chirped the would be witty host, 'tis only a lapsus linguae.'"—New York Press.

Snagging Salmon in Alaska.

I saw Indians on the Chilkat river fishing day and night. The fisherman walked along the bank carrying a pole on the end of which was a barbed steel hook.

Tossing the hook end of the pole into the stream, he turned it so that the elbow rested on the bottom. Then he gently drew the pole back and forth, and when he felt a fish strike the shaft he knew that a salmon was probably crossing over the pole, so he gave it a quick jerk, drove the hook into the fish's side and hauled it up on the bank.

This is called snagging salmon.—Forest and Stream.

Cupid's Hearty Apostrophe.

"You know," said the youthful youth, "music is the food of love!"

"Nonsense!" replied the practical fellow. "My love prefers lobster salad, terrapin and other expensive fodder."—Philadelphia Press.

Comforting.

"Will my husband live, doctor?"
"Well, madam, if he doesn't he'll come mighty close to it."—Judge.

SARTORIAL DILEMMAS.

Weighty Problems That Are Puzzling Our English Cousins.

A problem is put forward by a writer in a contemporary which gives food for thought. It is this: Suppose by some combination of circumstances you were faced by the alternative of wearing a frock coat with brown boots. Which would be the better way out of it—to wear a bowler or a tall hat? As the writer justly remarks, if you wear a bowler then the thing you have to explain away is the coat. If you wear a tall hat, you have only the boots to account for. We should advise those of our readers who find one morning that all the wearing apparel in the house had been stolen during the night with the exception of a frock coat, waistcoat, trousers, shirt, collar, vest, tie, a pair of brown boots and two hats—one tall, the other round—to cut the Gordian knot by staying in bed. Another of life's dilemmas which may face the traveler down the world's dusty highway has to do with collars. Suppose on arriving at a house for a week end and starting to dress for dinner you find that your evening collars have got wetted by your sponge or otherwise defaced. Should you wear a clean double collar or a dirty orthodox evening collar? In the former case you will be natty, but a thing of loathing to all properly constituted men. In the latter you will give the impression that you cannot afford the services of a laundry.—London Globe.

NAPOLEON'S HABITS.

The Great Warrior Was Fond of Perfume and Clean Linen.

It is pleasant to learn if one has Napoleon I. on the hero list that he had very dainty habits in personal matters; that he was fastidiously clean in his person, according to an article in a French contemporary, and poured eau de cologne into the water he washed in, then sponged his head with perfume and finally poured the remainder of the contents of the flask over his neck and shoulders. He was also extravagantly fond of clean linen and during his campaigns had relays of it sent to different places. In those days it did not cost a farm to have starched things laundered, for, in account with a famous laundress in Paris, the emperor's linen for one wash amounted to 886 pieces and cost only a trifle over \$20.

This strikes an American as very reasonable, but his majesty never wore any article but once, and, as he always undressed himself without aid from his valet, his garments were literally cast to the four corners of the room. Napoleon's bill for eau de cologne, however, exceeded the washerwoman's by a large majority. It is a relief to learn that the Little Corporal was so much a dude. Some of his predecessors in the Tuilleries were not blessed with such excellent habits if history is to be relied upon.

To Make Waxed Paper.

This is used for keeping substances which contain either a volatile aromatic ingredient or grease, which would penetrate through ordinary paper. On a flat sheet of copper over a gentle fire place a sheet of paper as a base and then lay a second sheet on the top of the first. Coat this second sheet with yellow or white wax and distribute the latter uniformly over the entire sheet by means of a sponge, exerting a little pressure, till the paper is everywhere transparent and consequently permeated by the wax. If the fire is too feeble, the process will be retarded. Too powerful a flame is still more harmful, as the paper is liable to become brown or black. Stearin may be used instead of wax.—Der Industriose Geschäftsmann.

Sure to Be There.

An old Scotch farmer was lying on what he thought was his deathbed. He began to give orders to his wife about his funeral and the people to be invited. His wife, knowing that he was not dying, paid but little attention to his requests, and this so enraged the farmer that he rose on his elbow and cried out:

"What need I speak? There'll be naething dune richt unless I'm there myself!"

His wife, patting him on the shoulder, replied: "Toots, man, Bauldy! Keep yer min' easy. Ye'll be the principal man there."—Glasgow Times.

Where They Gas Away.

Of the late Laugdon Smith, the brilliant journalist and author of New York, a Denver reporter narrated anecdotes the other day.

"I remember," he said, "my first visit to Washington, Smith, big and handsome and vivacious, showed me about. From an eminence a great pale dome rose up against the blue sky, the dome of the capitol.

"What is that?" said I.

"That?" said Smith. "Oh, that's the national gas works."

Gifts from the hand are silver and gold, but the heart gives that which neither silver nor gold can buy.—Bocher.

"Going Out to See a Man."

"Going out to see a man" was the invention of Artemus Ward. One night in the winter of 1866, when the humorist was about half through his lecture, he paralyzed his audience with the announcement that they would have to take a recess of fifteen minutes so as to enable him to go across the street to "see a man." H. R. Tracey, the editor of the Washington Republican, was in the audience and, seeing an opportunity to improve upon the joke, penciled these lines and sent them to the platform:

"Dear Artemus—If you will place yourself under my guidance, I'll take you to 'see a man' without crossing the street."

Artemus accepted the invitation, and while the great audience impatiently but with much amusement awaited the reappearance of the humorist the latter was making the acquaintance of Aman, a well known restaurant keeper at that time, and luxuriating at a well laden refreshment board. Of course everybody "caught on to" the phrase, and men became fond of getting up between the acts and "going out to see Aman." The restaurateur's business from that time forward boomed. Men who would ordinarily sit quietly through an entertainment and behave themselves allowed themselves to be influenced by the contagion.—Louisville Courier-Journal.

He Was Careful of His Voice.

Brignoll, the famous tenor, was very susceptible to flattery, and it is said that once in New York when the orchestra vigorously applauded one of his favorite songs he was so touched that he came down to the footlights and invited them all to a champagne supper at the Everett House. The supper cost him \$500.

Brignoli was very careful of his voice and was terribly afraid of drafts. It was once stated that during the winter it always took him three-quarters of an hour to get from his room to the street. First he would on leaving his room pace the hall for ten minutes to get acclimated. He then descended to the lobby, where the temperature was a little lower, and spent twenty minutes there. He then ventured to the vestibule, from which the door opened into the street. He would parade the vestibule for fifteen minutes, occasionally opening the door to let in a little cold air. Being now accustomed to a cool temperature, he would button up his coat and saily forth.

A Fast Record.

At a political convention held in Illinois the importance of nominating a popular man for a certain close district was thoroughly recognized. A speaker had just renominated a personal friend for the position and in an elaborate eulogy had presented in glowing terms his manifold merits, especially emphasizing his great services on the field of battle as well as in the pursuits of peace.

After he had finished a voice was heard in the rear of the room, "What we want is the man that will run the best."

In an instant the orator was again on his feet.

"If you think," he yelled, "that this convention can find anybody that can run better than the gentleman I have nominated, I point once more to his well known war record."—Lippincott's.

Mysterious Green.

To those who believe in the influence of color the shades of green afford an interesting study, not only because of the large number of green things found in nature, but the scale of greens is so varied.

Green is, or was, the chosen color of Venus or the Scandinavian goddess Freya and should be worn upon Friday, her name day.

The color has always been considered mysterious in its influence. All green creatures, such as snakes or birds, are weird, and people with what are known as green hazel eyes need to be carefully considered, and among clairvoyants green stands for intellectual power, just as they speak of the "blue of peace, rose of love and scarlet of anger."

His Honor Vindicated.

A couple of good natured Frenchmen got into a quarrel and challenged each other to fight. On the morning of the duel they and their seconds tramped through the woods to the fatal spot, when one of the duellists, the challenging party, tripped and fell. His second helped him to his feet.

"I hope you are not much hurt," said the other doctor.

"I'm not much hurt. I only bumped my nose on the ground."

"Yes, a little."

"Heaven be praised! Blood flows,
and my heart is vindicated. Give me

and my honor is vindicated. Give me your hand, old boy!"

Moral Lesson List

Moral Lesson Lost.
 "Good for Squidgie! I hear that since he quit drinking he has got rich."
 "It's too bad to spoil that story, but it's the other way. Since he got rich he has quit drinking."—Chicago Tribune.

Just a Fish Story.

Forty years ago, when my father was captain of an East India trading ship while off the coast of Africa near the equator the ship's carpenter was taken sick and died. He was sewed up in canvas, and with him were sewed a kit of tools and grindstone for balling to sink him. Services were held and the body committed to the sea.

Four days later the ship's boy overboard, and a great shark came under the stern and swallowed the body before he could be reached.

The next day the shark was still following the ship. A shark hook was baited and put over the stern, and a shark was caught, but was so large could not be taken on board, and the crew were obliged to shoot him. He was so plump and large the mate, who was an old whaler, wanted to go over side and cut the fish open. He lowered over and cut a hole in the shark and was surprised to hear water and on looking in saw the ship's carpenter, who was sharpening his ax to cut their way out.

My father, who is eighty years old, can vouch for this that it is a true story.—Boston Journal.

His Old College Chum.

A conductor sent a new brakeman put some tramps off the train. They were riding in a box car. The brakeman dropped into the car and said, "Where are you fellows going?" "Atchison." "Well, you can't get Atchison on this train, so get off." "You get," came the reply, and the brakeman was looking into the business end of a gun he took the conductor given him and "got." He went back the caboose, and the conductor asked him if he had put the fellows off. "No," he answered, "I did not have the heart to put them off. They were to go to Atchison, and, besides, they are old schoolmates of mine." The conductor used some very strong language and then said he would put them off himself. He went over to the car and met with the same experience as the brakeman. When he got back the caboose, the brakeman said, "Did you put them off?" "Naw, they schoolmates of mine too."—Wellington (Kan.) News.

Halevy and the Duc de Morny.

It may not be generally known what circumstances Halevy owed advancement in the French civil service to the Duc de Morny. The duke, amateur of the arts, had begun to write the libretto of a comic opera of Offenbach was to provide the music. He found that he had not the time perhaps that he had not the talent to finish it. He sought a collaborator, and Halevy came to the rescue and kept his secret. When, therefore, the duke of the ministry of Algeria, which he held, was suppressed he had no hesitation in asking his august patron for the post which he sought on the Journal Officiel. "The very thing!" exclaimed the duke. "There is six months' vacation when the chamber is not sitting so that you will have plenty of time to write for the stage." And he gave him a note to the head of the department, consisting of the simple words: "Make arrangements to give the best post for which he will ask you."—Westminster Gazette.

Nor a Hospital Either.

"Talking of our British country," quired the tax attorney of the Southern Pacific. "Well, I heard one other day. Big fat Britisher shut into one of those compartments at last moment. There was an American in there reading his newspaper."

"It's sixty miles to my station," marked the Englishman, and I was old chap, I'm treating myself for a wounded foot, and I say, if you don't mind, I'll put some of this iodine on my ankle. Best smellin' stuff."

"Go ahead," said the American, when he got the full odor of it, he shoved up a window and pulled out a cigar and lighted it and began puffing away vigorously.

"Here, here, my good fellow," tested the Englishman, "this is a smoking compartment."—San Francisco Chronicle.

As Others See Us.

"Mem-sahib," asked a young Indian girl of her English mistress, "do you wear those sad colors? I like them."

"I am in mourning, Latona. It is custom of English ladies."

"But black is the color of night, mem-sahib, and yet you believe that you die you go to heaven at once. Why not be glad for your friends to die and wear colors such as we

FLORIDA NEWS..

At recent meeting of the Farm Union in Columbia county there were about 500 farmers in attendance.

Hundred thousand boxes of oranges would be a conservative estimate for the coming orange crop in this territory.—Wachula Advocate.

Orlando has the foundation laid for a \$10,000 Elk's club house, and a two-story cement block building soon to be begun, while other blocks are in contemplation for business purposes to be constructed before winter.

Wild grapes are ripening, and large quantities of them will be gathered and made into jelly. They make excellent jelly. The prepared juice is a refreshing drink, and is good for cases of sickness.—New Smyrna News.

The regular rains that have been falling since July 1 have put new life into the orange trees. There has been quite a lot of summer bloom. The citrus crop will be short in this community this year.—Winter Haven Independent.

Jacksonville will have the benefit of winter, and in fact from December on indefinitely, of two large four-wheel street cars. The cars are to be the largest type of excursion car, and may be used as either open or closed cars, and will be provided with comfortable seats, ice water and colored lights.

Mullet are being shipped out of Titusville by the carload and the height of the mullet season is not near at hand. It takes over 15,000 mullet to make a load, so the reader can imagine the volume of the business when it reaches its peak. All of the fish dealers are doing business and fishermen from other parts of the river come here to take advantage of the fish harvesting time. From until the closed season for mullet catches the business promises to be bright.—Titusville Star.

While awaiting the departure of an excursion train in Ocala, his home, H. London, a negro, dropped dead at a union depot last night. The negro was loitering around the depot for the hour to arrive for the departure of his train. He did not appear ill in the least and had been going to several other negroes in the depot. All of a sudden he was taken to reel and fall to the floor. A man rushed to him and found him pulse very weak. Before a doctor could be summoned the negro had died. Beyond the fact that his name was H. McClendon and he was from Ocala, nothing else in connection with the negro could be learned. The body was turned over to an undertaker who will prepare it for shipment to Ocala. The sudden death of the negro created considerable excitement among the excursionists who, for the part, were negroes.—Times, 15th.

Nothing, bleeding, protruding or blind yielded to Doan's Ointment. Chronic cases soon relieved, finally cured. Dr. Williams' Pink Pills for Pale People all sell it.

The body of Mrs. W. M. Mahoney was brought here last week for burial. Mrs. Mahoney was a former resident of Melrose.

CONVICT PROBE RESUMED.

Physician at Mines Testifies About Death of Boy.

Atlanta, Aug. 19.—The legislative convict investigating committee has resumed its work.

Dr. J. H. Hendrix, of Jasper, was the first witness called. Dr. Hendrix had been employed as camp physician at the Durham coal mines. From the state, he said, he had received \$85 a month. The company furnished him a dwelling house and fuel. In addition to this, he said, the company collected for him his medical fees from free miners. From these he would sometimes realize \$75 a month, and at other times \$25 a month.

Asked as to his duties he said he visited the hospital three or four times a day, and inspected the meats. He was at the camp from September 5, 1905, until January 13, 1907. During all this time, he stated in response to a question from Chairman Feider, he had found no bad meat. His inspection of the meat was voluntary, not a part of his duty, he said. He testified further that diet at the camp came up to the specifications of the prison commission.

Chairman Feider asked the witness as to the whipping of young Winn.

At the conclusion of Dr. Hendrix's testimony W. D. Winn, a brother of the man alleged to have been whipped to death, was called to the witness stand.

Williams in the Tower.

Rome, Ga., Aug. 19.—R. L. Williams, who was brought to Rome from Summerville Monday and placed in jail here, charged with raping a 9-year-old girl, was taken by Sheriff Byars to the country and concealed all day. He was taken to Atlanta by the sheriff over the Southern. This action was ordered by Judge Moses Wright.

DETECTIVE WORK OF PINKOSON IS GOOD

Captures Robbers of Both Newberry and Trenton Depots.

PRISONERS NOW IN COUNTY JAIL

Were Convicted Before Justice Henderson of Newberry Upon Minor Charges Until Special Officer Obtained Just a Little More Evidence.

Special Officer Pinkoson of the A. C. L. has added new laurels to his already good reputation by capturing the burglars who entered both the Trenton and Newberry depots last week.

Although the officer was sure he had the right men he nevertheless had them arraigned upon other charges until he could further complete his evidence, and as a result they were brought before Justice Henderson, when they were convicted.

Jim Lewis, the ring leader, was given six months for concealed weapons, and his partner, Richard Hines, was given the same term for vagrancy, and before this time is "put in" the warrants in the other case will be awaiting them.

The robbers failed to get very much in either depot, as freight is too bulky to handle, but it is a credit to the officer to apprehend them so early, as no doubt they have been connected with much of the stealing in the High Springs section.

Paducah Mob After Negro.

Paducah, Ky., Aug. 19.—A mob of 75 secured the keys to the city jail and with weapons and a rope, searched for Will Hornsby, a negro, who is charged with attempting to assault Nita Powell. They were shown through the county jail by the jailer, but did not find the negro. They then left, vowing to return later.

Miss Eva Booth Fainted.

Warsaw, Ind., Aug. 19.—Overcome by the intense heat, after addressing an audience of 4,000 persons at the Winona Lake Bible conference, Miss Eva Booth, commander of the Salvation Army in the United States, fainted just after leaving the auditorium and is now under the care of a physician.

Kirkpatrick Declines Nomination.

Houston, Tex., Aug. 19.—E. W. Kirkpatrick of McKinney, who was nominated for governor by the Independence league, declined the nomination. He declared himself not a member of that party and announced his determination to support the democratic nominee.

Meet To Select Successor.

London, Aug. 19.—According to a special dispatch received here from Geneva the leaders of the Young Turk party are to meet in that city the end of this month to discuss the question of deposing the sultan of Turkey, and in the case of an affirmative decision, to select a successor.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send for a sample to The Herpicide Co. Detroit, Mich.

S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.

RAILROAD PROBLEM HALTS PROSPERITY

Present Situation of Carriers
Most Important Factor In
Business Recovery.

Manner in Which Freight Rate Problem is Solved Will Decide Fate of Roads, Chicago Authority Says.

Alfred H. Mulliken, president of Pettibone, Mulliken & Co. of Chicago, one of the best posted men in the country on railroad topics, has made a public statement in which he says:

Every man in the United States who is interested in the return and maintenance of prosperity is asked to consider carefully the following facts. Although the recent adversity came when the prosperity of the railroads was most pronounced, it was due to the attacks upon them, which compelled the roads to stop all expenditures for improvement, as this attack upon their credit made it impossible for them to sell bonds or obtain money. The panic of 1907 was caused by the attack upon railway credit, which created a fear in the minds of the people which led them to distrust all securities. But, putting aside railroad history, we are now faced by a condition, not by the past.

All Desire Prosperity.

What we all desire is prosperity. We cannot be prosperous if any large interest among our people is suffering and depressed. The credit of an individual or of a corporation is only improved by an increase in their net earnings. The railroad expenses have increased in the one item of labor alone \$100,000,000 in the last twelve months. They face this situation: Either reduce wages, increase freight rates or go into the hands of receivers and stop all payments for interest and dividends. The roads have been forced by public opinion and by the administration to advance wages and by the same are unable to reduce them. They are therefore compelled to face the other two alternatives.

We know what would be the effect of many roads going into the hands of receivers. The only practicable alternative, therefore, is to advance freight rates throughout the country.

Increases Not Felt by Consumers.

This advance will eventually fall upon the consumer, but it will be so small that he will not notice it. For instance, a 10 per cent horizontal increase in freight rates would hardly be known by any consumer. This increase on a suit of clothes from New York to Chicago would be less than 1 cent per suit, on a pair of shoes from Boston to Chicago less than half a cent per pair, on a derby hat from New York to Chicago less than one-third of a cent per hat. To the railroads it would mean an increase of \$140,000,000 to \$150,000,000 in earnings per year.

The proposed increase in freight rates will not change any distributing center, will make no difference in any line of business to the people engaged in it. But it makes an enormous difference, not only to the steel interest, for example, but to business generally, if there is a demand for only 50 per cent of the steel producing capacity of the country.

The Carriers as Buyers.

The railroads consume 50 per cent of the iron and steel manufactured in this country, and the moment railroad buying ceased activity in the steel mills diminished and business generally was impaired.

The railroads are the second largest purchasers of everything in the United States. Seventy per cent of their earnings are immediately distributed for labor and material. Within the last twelve months they have increased their payments to their employees over \$100,000,000. Does any one think that this \$100,000,000 is not a benefit to the people?

Dividends paid by all the railroads in the United States in 1907, the most prosperous year, was 3.73 per cent. The average dividend per annum paid by all railroads in the past thirteen years was less than 2½ per cent per year.

Our Roads Charge Lowest Rates.

Freight rates are lower in this country than in any other, and the service

Proof is inexhaustible that Lydia E. Pinkham's Vegetable Compound carries women safely through the Change of Life.

Read the letter Mrs. E. Hanson, 304 E. Long St., Columbus, Ohio, writes to Mrs. Pinkham:

"I was passing through the Change of Life, and suffered from nervousness, headaches, and other annoying symptoms. My doctor told me that Lydia E. Pinkham's Vegetable Compound was good for me, and since taking it I feel so much better, and I can again do my own work. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound did for me during this trying period."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

here is much better than in any other region on earth.

The capitalization of the railroads in the United States is lower than in any other country. The average is about \$67,000 per mile in stocks and bonds. In France the average is about \$140,000, in Germany about \$110,000, in England about \$273,000 per mile, and one English road is capitalized at \$300,000 per mile, on which it pays 4 per cent dividends.

On these high values the French railroads pay 4.3 per cent, the English 4 per cent and the German 6.1 per cent.

A reduction in freight rates below a fair return to the railroads does not help any one.

Railroad Prosperity Helps All.

It is absolutely true that the railroads cannot prosper without helping the people. They do not hoard their earnings. As stated above, 70 per cent of their gross earnings are spent immediately for labor and materials.

If this advance in freight rates takes place it will improve the credit of the railroads, it will enable them to sell long time bonds at a fair rate of interest and to obtain money to properly maintain and improve their properties. The railroads should be helped, not hindered, in their efforts to keep out of bankruptcy, improve their properties and give adequate service.

SHERMAN ACCEPTS NOMINATION.

Notification Ceremonies Were Elaborate—Day an Ideal One.

Utica, N. Y., Aug. 19.—The day of the official notification of James Schoolcraft Sherman, republican nominee for vice president, broke clear and delightfully cool and the local committee on arrangements prepared to carry out the program.

Senator J. C. Burrows delivered a lengthy address at the notification of Mr. Sherman, who, in accepting the nomination on the republican ticket for vice president responded in a well-chosen speech of acceptance.

SENATOR JULIUS C. BURROWS.

Your chairman, speaking for the committee, has notified me of my nomination by the republican national convention held in Chicago in June as the party's candidate for vice president. As I chanced to be in Chicago in June I had an inkling of the convention's action, which was confirmed by a warm-hearted reception tendered me by my neighbors on the occasion of my home-coming on July 2. This official notification, however, is welcome, and the nomination you tender me is accepted—accepted with a full appreciation of the obligations which accompany that honor, an honor greater because my name is linked with that of William H. Taft, whom I respect and esteem highly and who approaches the high office of president exceptionally well equipped to discharge the duties and bear the varied and weighty responsibilities of that exalted position. My acceptance could not be made with honor unless I were in full accord with the declaration of principles adopted by the

JAMES S. SHERMAN.

convention. Not only am I in full and complete accord with my party's platform but I endorse every word of the statement made by Mr. Taft in his address of acceptance when notified of his nomination as the republican candidate for president.

Our platform, as it should do, pledges adherence to the policies of President Roosevelt; promises to continue the work inaugurated during his administration, to insure to persons and property every proper safeguard, and all necessary strengthening of administrative methods will be provided to furnish efficient inspection and supervision and prompt righting of every injustice, discrimination and wrong.

The overshadowing issue of the campaign really is: Shall the administration of President Roosevelt be approved? Shall a party of demonstrated capacity in administrative affairs be continued in power? Shall the reins of government be placed in experienced hands, or do the people prefer to trust their destinies to an aggregation of experimental malcontents and theorists, whose only claim

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

to a history is a party name they pilfered?

With a record of four decades of wise legislation, two-score years of faithful administration, offering its fulfilled pledges as a guaranty of its promises for the future, the republican party appeals to the people and, with full confidence in their wisdom and patriotism, awaits the rendition of the November verdict.

Following the notification ceremonies at 12 o'clock Mr. and Mrs. Sherman entertained the members of the notification committee and a few guests at luncheon.

A WARNING

I have learned that certain persons are representing themselves as my agents, and taking orders for large pictures, claiming I will finish them. In some cases the pictures given them have been lost—pictures of dear ones which cannot be replaced. I have no agents, never did, and never will I deal directly with my patrons for all work. I cannot afford to pay an agent out of the prices I charge for the high-grade work I do. Bring your enlarging to me and you are not only insured against loss of the original but will have a guarantee of a faithful likeness and an artistic finish.

Is the amount of money we have loaned since we opened for business. We have not lost one cent on a bad loan, and have no paper on hand now that could be considered even doubtful. A bank is no safer than its loans, therefore we are very cautious about this feature of our business. If you apply to us for a loan and it is not granted, do not fall out with us; we are using our best judgment for the protection of our depositors, and we think our depositors come before our borrowers in a matter of this nature.

Is the amount of money we have loaned since we opened for business. We have not lost one cent on a bad loan, and have no paper on hand now that could be considered even doubtful. A bank is no safer than its loans, therefore we are very cautious about this feature of our business. If you apply to us for a loan and it is not granted, do not fall out with us; we are using our best judgment for the protection of our depositors, and we think our depositors come before our borrowers in a matter of this nature.

ATTACK THE PICKETS

Followed an Attempt to Set Fire to a Factory.

BACKS CAMP IN CORNFIELD

Called to Citizens to Aid in Fasten. the Responsibility Upon the Leaders—Refuse to Allow Same to Open.

Springfield, Ills., Aug. 19.—An attack on pickets and the forced hegira of the negroes from corn fields on the outskirts of the city to the state capital kept the militia busy Tuesday morning.

The firing upon the sentries and the answering shots occurred less than two blocks from the headquarters of General E. C. Young at the county jail. No one was injured in the attack, but the flying bullets from the militia carbines caused consternation in the district.

The trouble followed an attempt to fire to a factory building on 8th street between Jefferson and Madison. A negro who had been ordered away from the place several times during the night was discovered lurking in a shadow by Private George Howell, troop E, First cavalry. Howell ordered the man to move on. The negro's reply was a shot from a revolver. He dashed down the street, disregarding the commands of the sentries to halt. As he turned into an alley Corpnel Adelman and Constable H. Lowenstein, both of troop A, fired at him. The shots went wild and aroused the headquarters two blocks away and company E of the First infantry was sent to the place in double-quick.

Neighboring houses were searched, but no trace of the fugitive was discovered. The affair happened early before day break and was the first occasion of the night in which attempts had been made to assassinate militia pickets.

The clearing out of the corn fields on the east of the city was the result of successive nights of terror in Harbison park. An inspection of the corn fields showed at least 150 negro refugees had camped therein. The presence of the negroes is thought to have been responsible for the disturbed conditions in the suburb. Both Sunday and Monday night shots were fired there and it is now thought that the depredations by starving refugees had caused the troubles. At break Tuesday company E, First cavalry, under Captain Jacob Johnson of Chicago, was sent to the place to bring the negroes into the arsenal. In support to Governor Deneen's appeal to the citizens of Springfield to aid in maintaining responsibility for the situation upon the ring leaders was given a meeting of the chamber of commerce and the Business Men's Association Tuesday morning. Strict enforcement of the laws was urged upon the assembly and the aid of the association pledged. The clergymen of Springfield took similar action adopting resolutions declaring that "lawless administration of the laws which has largely characterized this community" is largely to blame for the riots.

The efforts of State's Attorney Johnson to bring the offenders to justice was commended as was also the refusal of Mayor Reece to allow the saloons to re-open.

Whisky Towns Draw Negroes.

Chicago, Aug. 19.—E. W. Chaffin, prohibitionist candidate for the presidency, who was injured in Springfield in the inception of the race rioting and trying to protect a negro who was pursued by a mob, declared that the cause of the trouble in Springfield was whisky.

"It is the open town," he declared, "that is bringing the bad negroes up from the south. They have been coming to Springfield and other such places ever since the south struck down at the saloons."

Watson to Tour Mississippi.

Memphis, Miss., Aug. 19.—The presidential campaign will be toured by the

Tom Watson, and other speakers for that party is the substance of an announcement just made here. Mr. Watson, accompanied by Mr. Carroll of New York, who made the address of notification to Mr. Watson and the famous Coxe, will open the campaign in this state in this city next month on a date to be fixed.

BUSY SESSION FOR BUYERS.

Hotels of New York Crowded With Southern Buyers.

New York, Aug. 19.—The city is filling up with southern and western buyers. All of the hotels were taxed to their capacity and several had to turn guests away. This is the season for the retail houses throughout the country to buy their fall and winter stocks. The vanguard of the buyers reached the city late Saturday afternoon and a steady stream has been coming in ever since. It was estimated that no less than 500 buyers came in Monday to say nothing of those who reached the city Saturday night and Sunday.

A canvass of the hotel registers showed that the territory covered by the buyers already had extended as far west as Denver and as far south as New Orleans and Galveston. They represent every class of retail trade, and usually the largest houses in their lines, many of which supply the smaller houses in their own vicinity.

CHILD'S DEAD BODY FOUND.

Gross Discovery Made by a Macon Man in Woods.

Macon Ga., Aug. 19.—Concealed in a clump of bushes on the banks of the Ocmulgee, the body of a small child was found by a man who was crossing from Ocmulgee street to the bridge. Coroner Young held an inquest and an examination revealed that a string had been used to choke the infant to death. Deep cuts were made in the flesh about the neck and strangulation was clearly revealed.

The case has been taken up by the sheriff's force and the police of the city, and an effort will be made to determine who is the guilty person. Whether the child was white or colored it could not be determined. The crime was committed only a short time before the disclosure was made.

CALIFORNIA CITY IS IN THROES OF SEISMIC TREMOR

Millwaukee, Wis., Aug. 19.—The weather bureau here reports an earthquake at Eureka, Cal.,

Chicago, Aug. 19.—A. H. Bell, government weather forecaster at Eureka, Cal., telegraphed the Chicago weather bureau that there had been a heavy earthquake at Eureka, Cal., about 3 a. m., Tuesday. The dispatch contained no mention of damage.

Washington, Aug. 19.—The coast and geodetic survey reported an earthquake Tuesday three thousand miles distant from here.

Chicago, Aug. 19.—The Postal Telegraph company reports that up to 10 a. m., central time, the Postal offices in San Francisco had heard nothing of an earthquake.

Diamond Ring in Bird's Nest.

New York, Aug. 19.—Miss Anna Dodge, of Brooklyn, who is visiting friends in Caldwell, N. J., while in the woods of that vicinity with friends, found a diamond ring valued at \$250. Her attention was drawn to a bird's nest at the foot of a tree and thinking it had been thrown to the ground by some small boy picked it up. In the nest was the ring. It is set with four diamonds of rare brilliancy. A jeweler says it is worth \$350. The nest was that of a black bird and it is supposed the bird carried the ring there.

In Hands of Receiver.

Huntsville, Ala., Aug. 19.—On the petition of Frank Caughlin, of Toledo, Ohio, Judge Shelby of the United States court of appeals has placed the long distance telephone company of Decatur, Ala., in the hands of receivers. L. G. Barker, of Louisville, Ky., and Douglas Taylor, of Huntsville, Ala., are named as receivers. The bonded debt of the company is estimated at \$151,000.

NEGROES BARRICADE

Themselves and Are Defying Hundreds of White Men.

RACES CLASH IN TENNESSEE

White Miners Object to the Employment of the Negroes and a Bloody Conflict Seems To Be Imminent in Mine District.

Knoxville, Tenn., Aug. 19.—As a result of the alleged determination of the King's Mountain Coal Company to work negroes in the same mines with white men, a race war that threatens to assume serious proportions is imminent in the mining districts adjacent to Jellico, Tenn.

Seventy negroes, heavily armed, are barricaded in a commissary, which is surrounded by between 300 and 400 white men, and an attack is expected at any moment. Sheriff Huddleston, of Campbell county, has just reached the scene, and is summoning every available citizen to protect the negroes.

The trouble, which has been brewing for several months, broke out, afresh Saturday, when 150 white miners went to the King's Mountain mine and drove twelve negro families from there. They marched the negroes all day Saturday, allowing the women and children to camp and eat what food they carried with them, but forced the men to keep moving. General Manager John Gorman, of the Astras mine, and the count authorities are doing everything in their power to avert trouble, but it is feared that a serious battle will occur before morning.

Sheriff Huddleston has a party of 100 armed men at Astras, the scene of the threatened trouble in the Jellico mining district, and believes that he has the situation well in hand.

The commissary in which the sheriff's party and the negroes are entrenched, is surrounded by a band of miners and mountaineers. There is constant firing among the hills around the camp, but no direct attack on the sheriff's party has been made. The latter, fortified as it is, is strong enough to repulse an attack by a party several times its strength.

Negroes are arriving at Jellico and other towns in a state of terror, some of them having been in hiding, while others camped out.

While no killings have been reported, it is considered possible that negroes may have been slain in the mountains and nothing known of it. The mine owners are holding a conference in Knoxville but what will it bring cannot be foretold.

IN BIRMINGHAM BY SEPT. 1ST.

A. B. & A. Will Run Trains Over L. & N. Tracks.

Atlanta, Aug. 19.—According to General Manager Alex Donnayman, of the Atlanta, Birmingham and Atlantic railroad, the Atlanta, Birmingham and Atlantic road will be operating into Birmingham, Ala., by September 1st, thereby connecting the last link in this new southern system.

The entry into Birmingham will be effected from Pelham, where the Atlanta, Birmingham and Atlantic crosses the Louisville and Nashville tracks, by a trackage arrangement with the last named road, which allows the Atlanta, Birmingham and Atlantic road to use its tracks between Pelham and Birmingham, and also the depot and storage warehouse of that system in Birmingham.

This accomplished, the Atlanta, Birmingham and Atlantic road will be operating from the Atlantic ocean into Atlanta and into Birmingham with its own trains.

This means that both Atlanta and Birmingham, two of the terminals, will be tapped within ninety days of each other.

For Stealing Liquor.

Macon, Ga., Aug. 19.—The Primus, one of the old employees of the Southern Express Company, was held to answer to the state court for alleged theft of four quarts of liquor from the office of the express company.

THE ALLIANCE IDEA.

Chinese Editor Says Logical Ally is the United States.

Paris, Aug. 19.—Li Sum Ling, the Chinese editor of The China Mail, who originated the idea of an alliance between the United States and China, during the course of an interview Tuesday affirmed that China is the logical ally of the United States, and declared that Germany was not fitted for an alliance with the United States, and that she would be unable to render help in the east. Further, he declared, and alliance with Germany would arouse the hostility of Japan and Great Britain—the most powerful factors in that part of the world.

On the other hand, he declared, China would be able to afford commercial facilities to the United States and in event of war the Chinese army would be sufficient added to the forces of the United States, to overbalance the power of Japan.

In addition, in case Great Britain's treaty obligations forced her to join with Japan, the German anti-English sentiment, Li Sum Ling declared, certainly would lead Germany to throw her sword in the balance and dictate the result of the struggle.

THREE KILLED BY HEAT.

Another Person Attempted to Commit Suicide at St. Louis.

St. Louis, Aug. 19.—Three deaths an attempted suicide, and more than a dozen prostrations were the results of the intense heat that has prevailed over St. Louis. The thermometer registered 95, but the high temperature was broken later by rain that brought cooling breezes.

The attempted suicide was that of Miss Anna Donohue, 26 years of age, who, while temporarily crazed by the heat and attired only in a night gown, rushed from her bedroom to the yard of her home early in the day, built a bonfire of grass and sticks, placed a chair in the center of the flames and sat down to die. She was rescued by two policemen.

AWAITING ARRIVAL OF FLEET.

Visit Will Be Replete With Numerous Festivities.

Sydney, N. S. W., Aug. 19.—Sydney is awaiting the arrival of the American battleship fleet on the tip-toe of expectancy, and the seven days that the vessels will be here will witness a series of entertainments more elaborate than ever before has been given in New South Wales.

The program includes receptions, dinners, balls, garden parties, excursions inland, Australian sports, base ball and foot ball matches; a military review, fire works, theater parties, concerts and a parade.

Forest Fires Still Burning.

Winnipeg, Man., Aug. 19.—Further reports received by the Canadian Pacific railway of forest fires on their property at Vancouver Island indicate that never before in the history of the island has such damage been wrought by fires. Indications are that thus far the timber loss will reach close to five million dollars and the fires are still burning. Settlers living in isolated parts have been driven into the fruit farming districts where the cleared land affords an element of safety. The mountain sides are swept bare. Many hundred head of cattle have been destroyed.

Killed Girl and Self.

Altus, Okla., Aug. 19.—Alice Carter, 11 years old, at her home, refused to marry Charles Fisher, a farmer, against her parents' wishes, whereupon he drew a revolver and shot and instantly killed her, and then committed suicide his body falling up on her body in her parents' home. Both were shot through the heart. Fisher left a note which showed the double tragedy was premeditated.

Man Is Killed.

Atlanta, Aug. 19.—A horrible death occurred when Cornelius W. Barnes, 19 years of age, a resident of Inglewood, Ga., and an employee of the Georgia railroad, was run over by a Louisville and Nashville freight engine 50 yards from the eastern end of the Union depot and only a few paces from the Central avenue crossing. The body was removed to an undertaking establishment.

LIGHT ON TRAGEDY

Physicians at Dying Man's Side Will Give Last Words.

PENALTY FOR WRONG DONE

Counsel in Divorce Action by Husband Is in New York City—Action Toward Compelling Return of Children to Wife.

New York, Aug. 19.—New light is expected to be thrown upon the Bay-side Yacht Club tragedy at the inquest held Wednesday evening at Flushing, L. I., into the death of William F. Annis, who was killed last Saturday by Captain Peter C. Hains, Jr., U. S. A. Dr. Henry Houghton, the physician who was at the side of Annis when he lost consciousness, was quoted as intimating that Annis, in his last moments, acknowledged that he was paying with his life for a wrong he had committed.

"He told certain things to me," Dr. Houghton is quoted as saying, "which no one else heard and which I have told to no one. When I am called on to testify before the coroner's jury I probably will make it public."

That there was absolutely nothing in the attitude of either of the Hainses to indicate that they were laboring under any delusion or any great excitement at the time of the shooting was asserted by the doctor.

It was learned that Frederick L. Norton, of Boston, Mrs. Hains' counsel in the divorce action brought by her husband would visit this city in reference to his client's affairs. It was understood that Mrs. Hains intends to take some action toward compelling the return of the children to her.

COL. WETMORE TALKS.

He Asks All Editors to Raise Funds for Committee.

Chicago, Aug. 19.—Editors of every democratic and independent newspaper throughout the United States will be appealed to by the democratic national committee to start subscriptions for the democratic campaign fund in their newspapers. This plan, which has been made known by Colonel Moses C. Wetmore, chairman of the finance committee, is distant from the effort already inaugurated by the national committee to obtain money through financial representatives under the direction of the national committeemen in each of the states of the country.

Must Show Cause.

Montgomery, Ala., Aug. 19.—Judge Sayre, of the Montgomery city court, has issued an order to Secretary of State Julian desiring him to show cause why he should not recognize the Davidson or anti-Roosevelt wing of the republican party in Alabama as the regular organization instead of the Thompson faction, which stands for the administration. The order was made on application of James H. Crawford, and John H. Handifer, leading republicans. The court directed the secretary of state not to certify the Thompson ticket for the election in November.

BRIEF DISPATCHES.

Dr. Henry Hopkins, former president of Williams college, is dead of pneumonia at Rotterdam, Holland.

James M. Lee, of East St. Louis, Ill., is dead of injuries received in a foot ball game nearly seven years ago.

Eugene W. Chaffin, of Chicago, has been notified of his nomination as the prohibition candidate for the presidency of the United States at Chicago, Ill.

Bishop Sylvester D. Tuttle of St. Louis, presiding bishop of the Episcopal church in America, with Bishop Frederick D. Johnson, of South Dakota, have returned from London.

Passengers from Guatemala City arriving on the steamer Harad say that the recent uprisings in Honduras were part of a project of Estrada Cabrera to make General Ramon Morales president of Honduras.

"SPIT BALL" WAS IT IN MONDAY'S GAME

Another Shut Out to Credit of Oak Halls' Great Players.

WATSON PUTS BALL OVER FENCE

Both Teams on Their Mettle and Know How to Play the Game. Large Attendance Will Be on Hand Today, and Good Game Assured.

from Tuesday's Daily Sun:

The article of ball played at the park on Monday was all that could be desired by ball fandom, and many regret the fact that they were not present to witness the game, little expecting that it would be such a grand and close affair.

The Olympics are a set of ball artists who understand the game, and they deceive their looks when it comes to handing down the article of ball they do, for they are to the merry with their playing.

The magnificent pitching of McLeod and Spottswood, and the home-run swat of Watson, were the special features, while the work of Bullock and Gramam was a la professional. Bridges, the bub that played second for the visitors, put up a great game, cleaning up everything that came his way.

It was a pretty game throughout, and all players on both sides did their stunts in a magnificent manner, and as good a game is promised all lovers of balldom that are left in the city who attend today.

FIRST INNING—Gullett gets hit and takes his base; Bridges pops to McLeod who shoots the ball to first, making a double play; Spottswood out, short to first. No runs.

Graham soaked it for two bases; Williamson fans, and Sheats takes the balloon route; Canova fans, leaving Graham on second. No runs.

SECOND INNING—Hendrick fouls out to catcher, who makes a fine run and catches the pill under the trees; McCall out, short to first, and Coles retires the side, pitcher to first. No runs.

McLeod skies out to first; Denton wanted another hat, but the ball was pulled from off the fence by McCall, and Watson whiffs. No runs.

THIRD INNING—Hay out short to first; J. Spottswood out, pitcher to first, and Hendricks retired the side by fanning. No runs.

Bullock went out, second to first; Miller walks, and was caught off first, but reached second on a muff by J. Spottswood; Graham hit to short, and Miller was run down between second and third, Graham landing safe on first; Williamson whiffed. No runs.

FOURTH INNING—Gullett reaches first on error, but was caught trying to swipe second; Bridges out, short to first; Spottswood went out, pitcher to first. No runs.

Sheats fanned; Canova out, pitcher to first; and McLeod retired the side on a fly to center. No runs.

FIFTH INNING—Hendrix tries one down third but was nailed at first; McCall hit to McLeod, out at first; Coles out, third to first. No runs.

Denton out on grounder to second; Watson makes the circuit via over-the-fence route; Bullock skied out to center; Miller walks, but Graham retired the side by fanning. One and the only run.

SIXTH INNING—Cole singles to right; Hay out, pitcher to first, while Cole gets second; J. Spottswood out to third; Hendricks fans. No runs.

Williamson and Sheats whiff; Canova out, short to first. No runs.

SEVENTH INNING—Bridges gets first on Graham's error; Spottswood bunted and beat it out; Hendricks skied out to third; McCall fanned; Coles retires the side, short to first, leaving two on the bags. No runs.

McLeod fanned, and Denton followed

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

suit; Watson lands another up to the fence and makes second on fielder's error; Bullock reached first on short-stop's error; Miller retires the side. No runs.

EIGHTH INNING—Hay and Spottswood fan; Hendricks makes first by a slow one to third, and Gullett puts the side out of business. No runs.

Graham fanned; Williamson out, second to first; Sheats follows suit. No runs.

NINTH INNING—Bridges gets first on McLeod's error; Spottswood fanned; Hendrix hits to third, where Bridges was tagged out; McCall ballooned out to second, retiring the side. No runs. Following is the tabulated score:

At the Churches Sunday.

The services at the First Methodist church Sunday evening were well attended, and being a combined song service and sermon proved very interesting. The pastor, Rev. T. J. Nixon, delivered an eloquent and impressive discourse, and the special music was good. Dr. Andrew Siedd filled the pulpit at the First Presbyterian church in the absence of the pastor, Rev. Thos. P. Hay, who is sojourning with his family in North Carolina, while Rev. Mr. Peelman of Lake Butler preached at the First Baptist church both morning and evening to good congregations. The pastor, Rev. S. H. Rogers, filled an appointment at the First Baptist church in Jacksonville.

A Weakling

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food, the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after-effects. Price 25 cents a bottle. Sold by W. M. Johnson.

HEAVY LOSSES FOR THE BUSINESS MEN

R. W. Higdon's Will Run Over Five Thousand Dollars.

OTHERS ARE IN PROPORTION

Pilfering of the Goods Almost as Heavy as Damage and Loss by Fire. Work Was Undoubtedly of Incendiary Origin.

The losses to the merchants of High Springs in the disastrous fire of Saturday morning will run far in advance of what it was at first thought it would, owing to the large amount of merchandise that has been stolen during and since the conflagration.

It was said that a special mania seemed to exist for guns, and that more of this one article was pilfered than that of all others, although the stealing was started during the fire and has since been going on.

R. W. Higdon was possibly the largest loser, owing to the amount of goods carried, and his loss will easily reach \$5,000, so we are informed, and the other losses will be in proportion to the amount of goods handled by the several firms.

The fire was undoubtedly of incendiary origin. Although many doubt this, still they are inclined to think that way, since the large amount of stealing that has occurred.

DIES INSTANTLY BY FALL.

An Aged Darkey Crushes His Head by Falling Down Steps.

From Tuesday's Daily Sun:

Robt. Simmons, an aged and well-known colored character about the city, Monday met his death by falling down stairs and crushing the back of his head.

He was employed by Mrs. T. W. Pitts, and it was while he was engaged in removing some furniture upstairs and arranging it in the different rooms he became unbalanced when at the head of the stairs and fell, the blow being sufficient to cause death almost instantly.

Marshal Arnow was notified and found that an inquest would be unnecessary and at once had the remains of the old colored man removed to his home in the northern section of the city.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENNY & CO., Sold by druggists, 75c. Toledo, O. Take Hall's Family Pills for constipation.

Col. Pitts in South Dakota.

Thomas W. Pitts of Tampa, Florida, arrived in the city Wednesday evening to remain a week looking after his real estate interests in this city. Mr. Pitts was a former resident of South Dakota and lived at Wolsey in the early days. He was engaged in the lumber business and sold a portion of the lumber for the first University building and for several stores erected on Main street. Mr. Pitts owns several lots in the University addition and one on Main street.—Mitchell (S. D.) Republican.

SPOTTSWOOD PUTS UP A FINE TWO-HIT GAME

Spottswood Also "To the Good" on Hurling Line.

LOOK HIM TO HOLD LOCALS

Spottswood Was One-Sided Until He Was Placed in the Box in Fourth Inning and the Fine Work of Locals Was Shot Off.

Oak Hills, 8; Olympics, 2.

That the "push" of baseball artists together by Manager Davis is the best there is in the State there is no further doubt, and that the aggregation of young gentlemen competing the Olympics is among the best we have tackled was fully demonstrated again yesterday afternoon at the ball park.

Of course the visitors were a little in the air and things looked sad in the fourth, with one run and two on bases, when J. Spottswood was placed in the box to do the hurling for the visitors, and he showed his remarkable good work of Monday, and the home lads were held down by good support on the part of the visitors.

Mitchell was again in the game yesterday, and during his five times up he sent the ball to the fence, but each time there was a man under it. All the locals batted well—their work with the timber will show them to be the waiting babes. In a few words, we have the champions, as we have always had, and expect to keep them. Following is the score by innings:

First Inning.

Graham walked; McLeod, running for him, was caught trying to pilfer second; Williamson fanned; Sheats hit to short and reached first on fumble; McLeod flew out to left. Hits 0, runs 0.

Gullett hit to McLeod, out at first; Bridges hit to Sheats who tagged him out; B. Spottswood hit through third, out at first; Hendrix hit one in same place and was out at first. Hits 0, runs 0.

Second Inning.

Mitchell got rapped with the ball and was first, a moment later steals second; Denton flew out to right, Mitchell taking third on the throw-in; Watson singled through short, scoring Mitchell; Watson takes second on a passed ball; Bullock hit safe down third-base line for one base and goes to second while third baseman held the ball; Miller hit an easy one to short who threw to the plate to catch Watson but was too late, Watson safe; Bullock taking third and Miller second; Graham hit to center, scoring Bullock and Miller; McLeod, running for Graham, went to third on throw; McLeod tried to steal home, but Williamson popped a little one to catcher who made double play. Hits 3, runs 4.

McCall hit to Bullock, out; J. Spottswood hit to short, out at first; Coles hit to third, nabbed at first. Hits 0, runs 0.

Third Inning.

Sheats fanned; McLeod hit to short and beat it out, and steals second; Mitchell skied out to left; McLeod out trying to swipe third. Hits 0, runs 0.

Hay flew out to Bullock; Bouie hit and was thrown out at first; Gullett hit to McLeod, out at first. Hits 0, runs 0.

Fourth Inning.

Denton hit to second and landed safe on first; Watson ballooned out to left; Bullock did the same; Denton took second; Miller hit through third for a single, scoring Denton; Miller takes second on throw-in; Graham hit to short and reached first on error; Miller goes to third on play and tries to come home, but changed his mind and went back to third; McLeod, running for Graham goes to second on throw to the plate. Here Hay, who the locals were touching up pretty nicely, was derided from the firing line and J. Spottswood goes in to an effort to stop the onslaught. Williamson fanned, leaving two on bases. Hits 1, runs 1.

Bridges was an easy out. McLeod

COULD NOT WALK FOR FOUR MONTHS

TORTURES OF ECZEMA YIELDED TO CUTICURA

"Cuticura Remedies are all you claim them to be. I had eczema for over two years. I had two physicians, but they only gave me relief for a short time and I cannot enumerate the ointments and lotions I used to no purpose. My ankles were one mass of sores. The itching and burning were so intense that I could not sleep. I could not walk for nearly four months. One day my husband said I had better try the Cuticura Remedies. After using them three times, I had the best night's rest in months unless I took an opiate. I used one set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent Pills, and my ankles healed in a short time. It is now a year since I used Cuticura, and there has been no return of the eczema."

"I had a small lump in the corner of my eye for over a year which was very painful and got larger all the time. I thought I would try Cuticura Soap and Ointment on it, and now it is gone. I am seventy-three years old and have lived on the farm I now occupy for twenty-seven years. Cuticura Remedies are the safest and most reliable I have ever used for all skin humors. Fifth Inning.

Sheats whiffed; McLeod followed suit; Mitchell flew out to left. Hits 0, runs 0.

McCall reached first on Graham's error; J. Spottswood reached first on Sheats' fumble; Coles flew out to right field, Mitchell making a sensational catch; Hendrix fanned; Bouie did the same, leaving two men on bases. Hits 0, runs 0.

Sixth Inning.

Denton hit to pitcher, out at first; Watson fanned; Bullock flew out to left. Hits 0, runs 0.

Hendricks flew out to third; Bridges hit through McLeod and reached first; Spottswood fanned; Gullett hit to short and reached first on Graham's error; McCall whiffed. Hits 0, runs 0.

Seventh Inning.

Miller fanned; Graham called out on strikes; Williamson got his base; Sheats singles to left; McLeod hits safe to center, scoring Williamson; Sheats going to third and McLeod to second; Mitchell ballooned out to left. Hits 2, runs 1.

J. Spottswood hits safe to left and stole second; Coles fanned; Hendrix out, third to first and Spottswood scored on overthrow by Bullock to third; Hay out, Sheats to Bullock. Hits 1, runs 1.

Eighth Inning.

Denton whiffed; Watson fouled out to catcher; Bullock landed safe on first on baseman's error and stole second; Miller hit to short, out at first. Hits 0, runs 0.

Hendricks was soaked with the ball and took his base, a moment later going to second on a passed ball; Bridges struck out; B. Spottswood hit to left, scoring Hendricks; Gullett flew out to Graham; McCall flew out to Bullock. Hits 1, runs 1.

Ninth Inning.

Graham fanned, but reached first on catcher's error; Watson running for Graham; Williamson sacrificed; Sheats popped out to pitcher; McLeod singled to right, scoring Watson, and taking third himself on the throw-in to the plate, and scored on an overthrow by third baseman; Mitchell flew out to left. Hits 1, runs 1.

J. Spottswood hit to third, out at first; Coles skied out to Watson; Hendrix singled to center but was caught trying to stretch it for three bases. Hits 0, runs 0.

ALACHUA GINNERIES ARE IN OPERATION

The Best Market for the Fleecy Staple in The Belt.

IS A GREAT HELP TO BUSINESS

Operators Pay Out Large Sums to Employes Weekly, and the Buyers Make Things Lively for the Merchants—Staple Now Moving.

Alachua is now possibly the busiest little city in the entire State, owing to the fact that the ginneries at that point began operations Monday.

The plants at this point operate more gins and give employment to more labor than any other point, and it will mean much for that place in a business way, as it is practically the best point in this section, although there are several other places that are prepared to handle the staple.

More cotton is sold there because they have long been noted to pay just a little more than all other points, and as a consequence farmers have been known to haul their cotton from the southern end of the county to offer it to the buyers of that place.

At all times non-resident buyers are on the grounds, and usually from a half-dozen to more are looking over what is to be offered to the trade.

CROWD FOR JACKSONVILLE.

Ten Coaches Left Here Over Atlantic Coast Line.

From Tuesday's Daily Sun:

The excursion operated over the Atlantic Coast Line from Ocala via Gainesville to Jacksonville left yesterday with ten well-filled coaches from this city and other points.

Ticket Agent Goodwin succeeded in disposing of two hundred and ninety-five tickets and a large number of this percentage were white people, including a great many ladies.

The greater part of the Gainesville contingent returned on the extra last night, while others remained and will visit the beach.

Returns From Extended Trip.

Jesse C. Clarke, the clever and successful traveling representative of the H. W. Rountree & Bro. Trunk and Bag Company of Richmond, Va., has just completed an extended visit through Louisiana, Mississippi and Texas. Mr. Clarke states that business conditions in Texas are exceptionally good. The crop yields, especially corn, have been very good, and indications are that the cotton crop will be the best for years. Money in that State is easy, with the result that business along all lines has been good.

LETTER TO N. W. MALPHURS.

Gainesville, Florida.
Dear Sir: A certain paint manufacturer advertised "Waldorf-Astoria painted throughout with my paint." A part of the basement was so painted; not satisfactory; painted Devco next time.

There's a certain paint, a big concern, very proud and ambitious, that hated to see so big a job of another paint; so it went for that business.

That former paint was about two-thirds not paint, but this proud and ambitious paint was only about one-third not paint. It succeeded in getting a trial: 25 gallons, 5 kits of 5 gallons each.

When the painter had used one kit, he called the manager; not satisfactory; 4 of the kits returned. A paint, on-third not paint, is not good enough to displace Devco.

This was several years ago. That proud and ambitious paint is better now; it is nearer honest; it isn't short measure at all and only 15 per cent adulterated. It's a pretty good paint now; 13 or 14 gallons of it goes as far as 10 of Devco.

Judge L. D. Fairchild owns two houses alike in Lufkin, Texas. J. M. Torrence painted both houses, one Devco, and the other with that proud and ambitious adulterated 15 per cent paint. It took 15½ gallons Devco and 25 gallons of the proud and ambitious paint.

It takes a pretty good paint to disturb Devco.

Yours truly,
F. W. DEVCO & CO.

Birthday Party.

Miss Ruth, daughter of Mr. and Mrs. L. A. Jernigan, tendered her young friends an enjoyable time Saturday afternoon, August 15th, in honor of her 13th anniversary. A handsome cake, lighted with 13 candles, was a feature of the decorations, a prize being awarded to the one who blew out the most candles, which was awarded to Howe McCormick, who with a single breath extinguished twelve and carried off the silver cup. Julia Patton got the booby for extinguishing only one.

Refreshments consisting of cake, cream, etc., were much relished, while the games and music added to the merriment.

All the guests expressed themselves as delighted with the function and departed for their homes wishing Miss Ruth many happy returns of the day.

Gainesville's water supply is the most pure of any town in the State. This has been demonstrated by a recent analysis.

A Chicago woman shot at a burglar and hit her baby. The youngster is starting rather early on his career as an innocent bystander.

Only a few years since the idea of shipping Florida sweet potatoes to other States was not thought of, but now they leave the State by railroads and bring good prices.

The Sun regrets to chronicle the death of Hon. John D. Calloway of Lake City. He was an untiring worker in behalf of his people and will be sadly missed. We were pleased to number him as one of our personal friends and extend heartfelt sympathy to his relatives.

There is no disputing the fact that the men nominated by the Republicans as candidates for State offices are all gentlemen of high personal standing, but they will not poll much of a vote in the election unless they are materially aided financially in the way of funds with which to pay the colored brothers' poll taxes.

Georgia will not hereafter be afflicted with early primaries, a new statute providing that no general primary election shall be held until after the adjournment of the Legislature in August. This will give voters an opportunity to study the record of members of the Legislature who are candidates for State offices.

The Georgia Legislature enacted a law requiring hotel keepers to provide beds with clean sheets and mosquito bars, referring to which The Kissimmee Gazette remarks that what Florida hotel patrons are interested in the proprietors providing is more grub. The patrons of Gainesville hotels have no complaint on either score.

J. W. Keys (Monk) succeeds Jeff L. Davis as editor of The Quincy Journal, the latter having accepted the position of editor and manager of The Quitman (Ga.) Times. Mr. Keys is well known in Alachua county, and is an experienced newspaper man. The editor of The Sun is glad to see his old friend again in harness.

The new hard road leading from Hogtown creek west through the Stringfellow property is one of the best pieces of road in the country, but it already needs repairing in several places. A day's work just now would put the road in first-class condition, whereas the longer the repairs are delayed the more the expense will be to the county.

THE DAIRY INDUSTRY.

The following is taken from the August number of Florida Health Notes, issued by the State Board of Health, and is especially commended to the dairymen and cattle raisers of Alachua county:

"While many cities and towns of the Union, and even in the State of Florida, are introducing and passing laws looking to the closer inspection of cattle to insure pure milk and to guard against that dread disease, tuberculosis, the town of DeLand stands in the unique position of being the first in the State of Florida to be thoroughly inspected. That fact is due to the enterprise and conscientiousness of our dairymen, who did not wait for laws to be passed, forcing them to have their cattle examined, but as soon as they learned that there was danger from that source, and that the State Board of Health stood ready to help them, they made their request for a veterinarian to be sent down to inspect their cattle."

And the veterinarian was sent, and every herd furnishing milk to the citizens of DeLand was tested. All the herds except two were found to be absolutely free from tuberculosis. One of these had two cases. These were made away with immediately. The situation then was narrowed down to a single herd, and that, by the way, is a most interesting one. In that herd, a cow died of tuberculosis, some three or four years ago, but no effort was made to clear the herd at the time. What has the result been? That of twenty-three cows twelve were found to be tuberculous, one strongly suspicious, and only ten negative. The lesson is, that when tuberculosis gets into a herd, it gradually but surely infects the cows, one after another, so it is only a matter of time when the majority of them will have the disease. The lesson is that if a man would save his cows from tuberculosis, and thereby save his purse, he must have them tested often, at least once a year, and remove every tuberculous cow. This man did not do it, and while his neighbor had twenty-seven cows absolutely free from tuberculosis, he had twenty-three with only ten free. The environments of the two herds were the same, the climate and other conditions the same; the only difference being that the one let tuberculosis get started, and did not remove it until it had made terrible headway.

LIVE WIRES.

Palatka is to have a daily newspaper, backed by substantial business men of the place. A modern newspaper plant will be installed. A correspondent of a Jacksonville paper gives this news to the public, but does not say whether or not either of the two weeklies there are in the deal.—DeLand Record.

Upon which The Palatka News comments as follows, showing conclusively that there is no necessity for the publication of a daily paper in the Gem City so long as two such "live wire" weeklies as The News and Times-Herald are published in that city:

"It is not of record that either of the publishing firms in Palatka contemplate the move indicated. But there is a ponderous young man in the place whose brains are said to be oozing, and when the waste was discovered by a local mugwump with an ambition to lead in municipal affairs, he prevailed on the young man with the brain leak to start a daily paper, one whose motif should be, 'you tickle me and I'll push Palatka.' The paper was launched with a stunning, compressed air effect in The Times-Union of the 2nd inst., and already has a large circulation. But, speaking of newspapers, reminds us that those we have are not so slow, a fact that should have weight with the public and cause them to bear with the lags they have rather than fly to others they know not of. As an instance of their speed we'll note one item. In The Times-Herald of July 31st there appeared an item to the effect that a certain prominent couple in the country were rejoicing over the birth of a son. The News saw the item and appropriated it. The announcement appeared in this paper one week later than in its contemporary. But that was soon enough, for the child was not born until 15 hours after this paper had gone to press. But it was a boy all right. In the face of such talent at anticipation on the part of our weekly papers, what need has Palatka for a daily, unless it be to push some poopedoodle who is shy on ability to 'get there' unaided."

SOME HARD BLOWS.

The Sun's Washington correspondent comments upon Mr. Bryan's speech of acceptance as follows:

"Mr. Bryan dealt the Republican party some terrific blows on some very vulnerable spots. Mr. Bryan charges Secretary Taft with attempting to amend the Republican platform, which is an admission that the trusts and not the people wrote it. It is well known that a motion was made in the Republican National Convention to provide for the physical valuation of railroads as a guide by which the amount of stocks and bonds should be issued by the roads. It is well known that the Republican National Convention voted down this proposition. A great hardship on the people of this country results from the fact that when a railroad is organized and its stock is sold, the money for that stock goes into the pockets of the organizers and promoters as pure graft, and then the crowd of grafters that organizes it issues bonds for building the road. So that all of the proceeds of the stock is practically stolen and the bonds go to the building of the road. By this wholesale stealing and grafting, which has characterized all the roads of the country, the people are compelled to pay rates for transportation high enough to pay the interest on the bonds issued and dividends on the stock, which is practically all water. If the railroads of this country had been built on honest principles, and if they were now being built on honest principles, the public could secure transportation at one-half of what they are now paying. Mr. Taft has seen the evil of this and has recently held a joint debate with his own platform. This only shows how completely the Republican party has surrendered to corporations and trusts. Mr. Bryan not only stands to correct this mighty evil, but his party is united at his back, whereas the Republican party is bitterly opposed to it as shown by their vote in the Chicago convention, which voted down the physical valuation proposition by 880 votes against 112, showing that more than 8 to 1 of the leaders of the Republican party are opposed to it."

IS THE SOIL GIVING OUT?

American soil is losing its fertility, according to James J. Hill. The great railroad magnate ought to know, for he has made a careful study of the subject.

The yield in wheat, for instance, has fallen off heavily, says Mr. Hill. While Minnesota soil yielded 13.12 bushels to the acre on the average during the first five years of the past decade, during the last five the average was 12.18. In New York the figures are 18.4 and 17.4, while in Kansas there has been a drop from 15.14 bushels to 13.18. Similar findings are made in the other States.

Mr. Hill makes his point clear by citing the average yield in Denmark—60.19 bushels, which he says is due to the scientific cultivation and enrichment of the soil. Although the land has been tilled for centuries, it has five times the yield of the practically virgin soil of America, simply because the Danish farmer looks after the soil instead of leaving it to chance and the elements to see that it does not run down.

The intelligent among American farmers are learning, and the less intelligent will learn, that the prodigal exhaustion of large holdings of soil is not the most profitable method of agriculture; the intensive cultivation of small farms, scientifically cared for and periodically fertilized, is what American farmers must come to if they want to get the most the soil has to give—and want to keep the soil giving it.

It is to be hoped that the report of the establishment of an extensive paper mill in this city will prove true. The project has been on foot for some time, but the financial panic of last fall interfered with all negotiations for the time being, but now that money has become "easy" we are glad to hear of renewed efforts to establish this great enterprise. The principal man behind this proposed new factory is a gentleman of means, and we know him sufficiently to have faith in the accomplishment of anything he undertakes.

A Philadelphia motorman has inherited \$150,000, but refuses to give up his job. He appreciates the privilege of riding on the front end of the car these days.

A LITTLE TOO THICK.

The Jacksonville Metropolis of last Monday contains an article referring to the recent dastardly murder of W. H. Moreland at High Springs, which "spreads it on" entirely too thick. What brought about the article was a "threat" The Metropolis claims to have received from a member of what it terms "The Gang," as follows:

Metropolis—You had a good article about the High Springs fire. I am one of the gang that started it. Owners were against our gang when Billie shot that d— Moreland, and we want to put them out of business. They talk too d— much.

I am now pursuing Eaton, and will kill him if he goes back to High Springs. Yours truly,

MEMBER OF GANG.

P. S.—Drummers will have to carry Winchester in High Springs.

The Metropolis says the above was mailed in Jacksonville, and The Sun therefore doubts that it came from any citizen of High Springs, or any "Member of the Gang." It has the appearance of having come from another source.

The Metropolis says that "during recent years not less than twenty-three murders have been committed in High Springs." What does The Metropolis mean by "recent years?" There have not been twenty-three murders committed in High Springs and surrounding country during the writer's residence of thirty years in Alachua county, though God knows there has been a sufficient number to have resulted in several hangings had the fiends been apprehended and properly punished. But in some instances killings at High Springs have been declared justifiable by juries, and not all of them have been of the nature of the murder of Sellars and Moreland.

The good people of High Springs, and there are as good people there as are to be found anywhere, are put to sufficient shame for the crimes that are really committed there by the lawless element, without having the condition of affairs made to appear so much worse than it really is, and The Metropolis has exaggerated matters to entirely too great an extent. Just as dastardly murders have been committed in Jacksonville and Duval county and the perpetrators gone unapprehended as were ever committed in High Springs and Alachua county, and they will be committed in every State in the Union many years after the present generation has passed away.

The Sun is making no apology for the lawless element of High Springs. On the contrary, we deeply deplore that the town has been the scene of so much lawlessness and sincerely hope that the perpetrators of the foul murders and robberies committed there will be brought to justice and made to pay the penalty of the law.

BETHEA MURDER CASE.

Referring to the second mistrial in the case of young Bethea, charged with the murder of Holt, both of whom formerly resided in Alachua county, The Miami Metropolis says:

"When the jury reported in the second trial of Thomas H. Bethea and stated that they failed to agree the county became the poorer by several thousands of dollars.

"The jury was composed of twelve men whose intelligence is far ahead of many murder juries, and they must be upheld in their sincere belief regarding the guilt or innocence of the young man on trial for his life.

"Six of the jurymen held for guilty of murder in the first degree, while the other six stood for acquittal. The two extremes were equally balanced, each body of men being firm in their decision.

"Credibility of some of the witnesses seemed to form the foundation of the opinions of the jurymen, and on that hangs all the law. Bethea will be tried again, making the third trial he will have gone through, and it is hoped, for the sake of the defendant, as well as the commonwealth, a decision will be reached by the next twelve men selected to try the case."

Frank H. Hitchcock is regarded by the Washington newspaper men as the monumentally silent man. Before the campaign is over Mr. Hitchcock will discover that the newspaper men will talk for him unless he loquens a bit and talks for himself.

EDWARDS IN VERY SERIOUS CONDITION

Was Thrown From Horse While Hunting Monday.

CONCUSSION OF BRAIN RESULTED

Remained Unconscious for Over Twenty-Four Hours, But Was Slightly Better Tuesday—Fall Was From Head.

From Wednesday's Daily:

D. G. Edwards was the victim of a serious accident on Monday which may yet cost him his life, although strong hopes are entertained for recovery by his attending physician.

He was running a cow when the animal he was riding stumbled and threw him forward, and he struck on his head, inflicting a severe wound at the same time rendering him unconscious, the blow resulting in concussion of the brain.

After being assisted to his feet, which was only a short distance away, Dr. J. H. Hodges was summoned and gave the patient his every attention. Although Mr. Edwards is in a stupor for over twenty-four hours some signs of improvement were noted Tuesday morning.

He is being carefully nursed by wife and many friends, and it is expected that he will soon regain his health, although he is yet in a very serious condition and it will require close attention to again bring him around.

BONNIE MELROSE.

Melrose, Aug. 19.—Miss Sadie Melrose and Miss Claude McKee are spending a few weeks at White Springs.

Mrs. M. J. Barnett has returned from a week's visit in Hawthorn.

Mrs. O. C. Grimes recently spent a few days in Jacksonville with her son, Leo Grimes.

Mrs. J. Stomsill left Saturday morning to join her husband, who has been there several weeks.

Nick Morris of Atlanta is at home for a vacation.

Geo. Keeler of Cheshire, Conn., is in town for a few days to look at his house which was recently struck by lightning.

Myra and Candler Barr have returned home, after spending a week with their grandparents at White Springs.

Mrs. Whitney and grand-daughter Marion, left last week for Connecticut to spend the remainder of summer.

C. P. Huffman is back from his trip to Philadelphia and other points. Leo and Grace Julian of Lake City are visiting at Rev. W. A. Julian's.

Miss Mary Moseley left last week for White Springs.

Mrs. O. C. Husband is expected home today from Georgia, where she has been for her health, but is improving.

Mrs. H. C. Roberts of White Springs is visiting her daughter, Mrs. T. Z. Barr.

The body of Mrs. W. M. Mahoney was brought here last week for burial. Mrs. Mahoney was a former resident of Melrose.

The ladies of the Gainesville Cemetery Association are still in need of funds with which to complete the fence around the grounds. Contributions were received last week from J. M. Cox of Alachua and W. T. Jones of Fort White, for which Messrs. F. D. Warner and H. H. McCrea desire to publicly thank them. Others who do not reside in Gainesville, who have loved ones resting in the green cemetery would greatly assist in the work of love these ladies are doing by aiding them financially. Every little helps.

Mr. Bryan has been "notified" his nomination. Custom, foolishly held, holds sensible men in its grip to great expense and to the test of absurdity. Bryan as well as Taft knew they had been nominated. The country knew before hand what they would say in substance. Now, let some wise man, with prophetic ken notify the people that Bryan will be the next President. Arcadia News.

HIGH SPRINGS IS MUCH AROUSED

Citizens of the Town Weary of Reign of Thugs.

LETTER OF SUSPECTED PARTY

Letter Published Is Attempt of Guilty Party to Place Guilt on His Son, and That He Is Determined to Solve the Mystery.

Jacksonville Metropolis, Aug. 18.)—Thoroughly aroused over the manner in which the reputation of their town has been blackened by the operations of a thieving and murdering gang of thugs for years past, the good people of High Springs are doing everything in their power to bring the gang broken up and to bring justice to the murderer or murderers. H. H. Moreland, the traveling man, the State is also aiding the movement in every way possible, and it is hoped that at no distant date the High Springs gang will be made thing of the past.

Prominent Citizen Here.

W. A. Bexley, justice of the peace at High Springs, and father of Will Bexley, the young man arrested with Osteen on suspicion of having murdered Moreland, visited The Metropolis office this morning and asked to be shown the original of the threatening letter published yesterday afternoon, and his request was granted. Mr. Bexley, who is one of the best-known citizens of High Springs, was somewhat perturbed by the fact that the writer of the letter stated that "Billie," meaning his son, had killed Moreland, and declared the letter was nothing less than an attempt of guilty parties to place the stigma of guilt on his son. "There is not a man living," said Mr. Bexley, "who is as deeply interested as I in learning who murdered Moreland, for my son has the charge hanging over his head. I am working the case to the very best of my ability, and will not rest until my boy is proven innocent and the real murderer discovered. The good people of High Springs are also aroused on the subject, and will do everything possible to solve the mystery."

Regarding the recent fire, to which an anonymous writer alluded, Mr. Bexley stated that he was the heavy individual loser of the town, his loss amounting to nearly \$5,000. He had to get some clue from examining the handwriting in the anonymous letter, but was unable to do so. Publication of the anonymous letter in The Metropolis has served to arouse the State more thoroughly than ever, by reason of which it is hoped the murderous gang will finally be done away with, by the law.

Fernandina Sports Have "Strings to Their Long Green."

M'LEOD'S FIELDING A FEATURE

Both Teams Put Up Brilliant Fielding Game—Umpire's Decisions Made Things Bad for Watson—Small Crowd Turned Out to See Game.

Before a small and unenthusiastic crowd of fans the Fernandina team whitewashed the Oak Halls yesterday afternoon by the score of 1 to 0.

The game was one of the fastest ever seen on the Fernandina grounds, and both teams fought stubbornly from start to finish. Spectacular plays were numerous on both sides, but the Oak Halls carried off the fielding honors by their fast and snappy plays. Fernandina scored their only run in the second inning, but the phone message we received at this office did not state how the tally was made.

It was a pitcher's battle from the time the game was called and the two fingers pitched brilliant ball all through the contest. Walker had a shade the better of Watson, as he let the Oak Halls down with four stingy hits and issued no passes. The umpire's decisions were undoubtedly against Watson, as he is credited with walking four men. He only allowed Fernandina five hits, which is one more than Walker gave. Watson fanned four men, while Walker whiffed ten.

McLeod's fielding was the feature of the game. He made the spectators sit up and take notice when he pulled off a sensational catch. His performance around second base would have made a big leaguer look ashamed of himself.

The Fernandina sports evidently were scared of the Oak Halls, as they were not inclined to wager any money on the game, not even a small amount. But after Fernandina had scored they loosened up a little, very little, too.

The Score by Innings.

Fernandina. 0 1 0 0 0 0 0 0—1

Oak Halls. 0 0 0 0 0 0 0 0—0

Batteries—Fernandina, Walker and Bowen. Oak Halls, Watson and Miller.

Struck out—By Walker 10, by Watson 4.

Base on balls—Off Watson 4, off Walker 9.

Hits—Off Walker 4, off Watson 5.

Time of game—1:30.

ADOPT RESOLUTIONS.

Methodist Sunday School Take Action on Departure of Mrs. McBeath.

The members of the Sunday school of the First Methodist church met and adopted the following resolutions on the 16th inst., relative to the departure of T. F. McBeath and family as follows:

Whereas, our Sunday school will sustain a serious loss in the removal of Mrs. T. F. McBeath and her excellent family, who are to leave in a few days for their new home in Columbus, Mississippi; therefore be it

Resolved, First: That we hereby express our high appreciation of the faithful service of Mrs. McBeath as teacher of the large primary class in our Sunday school. The little children have learned to love her very much, and many lessons of truth have been imparted that will brighten their lives through all the future years.

Second: That we tender to our young brother, Tom McBeath, our thanks for his faithful work as secretary of our school.

Third: That while our Sunday school and church will suffer a very great loss in the removal of these efficient workers from the community, we do sincerely hope they may be as useful in their new field as they have been with us.

Fourth: That these resolutions be recorded in our minute book, that a copy be presented to the family, and the city papers be requested to publish them.

MANY TONS OF HAY NOW BEING SAVED

This Commodity Was Formerly Not Gathered in this County.

SAVING OF THOUSANDS YEARLY

The Farmers Are Gradually Getting More Independent in the Matter of Forage, and Truckers Make Good on This Crop—Money Saver.

The weather for the past week has been such that the farmers have succeeded in saving many tons of hay, which was for many years allowed to lay in the field and waste.

Until only a few years ago this item of expense to the people who had stock to care for was not given the attention that it is now receiving, but new and modern machinery has been added to the farms and large numbers of the people not only cut and sell the hay loose, but are provided with means for baling it and placing it among the merchants, where they receive a fair profit on their labors as well as good remuneration for their crop.

The past few days has witnessed an unusual large amount of the loose material being hauled to the city, and should the favorable weather continue several thousand dollars worth will be cut before the crop is too old and far advanced.

That the farmers could not have seen this long ago has always been a mystery, but at last it has been discovered and more of the product is being gathered each year.

While awaiting the departure of an excursion train in Ocala, his home, H. McLendon, a negro, dropped dead at the union depot last night. The negro was loitering around the depot waiting for the hour to arrive for the departure of his train. He did not appear ill in the least and had been talking to several other negroes in the depot. All of a sudden he was seen to reel and fall to the floor. A policeman rushed to him and found his pulse very weak. Before a doctor could be summoned the negro had died. Beyond the fact that his name was H. McLendon and he was from Ocala, nothing else in connection with the negro could be learned. The body was turned over to an undertaker who will prepare it for shipment to Ocala. The sudden death of the negro created considerable excitement among the excursionists who, for the most part, were negroes.—Times Union, 18th.

DETECTIVE WORK OF PINKOSON IS GOOD

Captures Robbers of Both Newberry and Trenton Depots.

PRISONERS NOW IN COUNTY JAIL

Were Convicted Before Justice Henderson of Newberry Upon Minor Charges Until Special Officer Obtained Just a Little More Evidence.

Special Officer Pinkoson of the A. C. L. has added new laurels to his already good reputation by capturing the burglars who entered both the Trenton and Newberry depots last week.

Although the officer was sure he had the right men he nevertheless had them arraigned upon other charges until he could further complete his evidence, and as a result they were brought before Justice Henderson, when they were convicted.

Jim Lewis, the ring leader, was given six months for concealed weapons, and his partner, Richard Hines, was given the same term for vagrancy, and before this time is "put in" the warrants in the other case will be awaiting them.

The robbers failed to get very much in either depot, as freight is too bulky to handle, but it is a credit to the officer to apprehend them so early, as no doubt they have been connected with much of the stealing in the High Springs section.

CONVICT PROBE RESUMED.

Physician at Mines Testifies About Death of Boy.

Atlanta, Aug. 19.—The legislative convict investigating committee has resumed its work.

Dr. J. H. Hendrix, of Jasper, was the first witness called. Dr. Hendrix had been employed as camp physician at the Durham coal mines. From the state, he said, he had received \$86 a month. The company furnished him a dwelling house and fuel. In addition to this, he said, the company collected for him his medical fees from free miners. From these he would sometimes realize \$75 a month, and at other times \$25 a month.

Asked as to his duties he said he visited the hospital three or four times a day, and inspected the meats. He was at the camp from September 5, 1905, until January 18, 1907. During all this time, he stated in response to a question from Chairman Feider, he had found no bad meat. His inspection of the meat was voluntary, not a part of his duty, he said. He testified further that diet at the camp came up to the specifications of the prison commission.

Chairman Feider asked the witness as to the whipping of young Winn.

At the conclusion of Dr. Hendrix's testimony W. O. Winn, a brother of the man alleged to have been whipped to death, was called to the witness stand.

A DISAPPOINTMENT IN LOVE AFFAIR

Causes Miss Alice Walker of Cal, Fla.,

RATTLER KILLS MR. WALKER

Was Bitten While Hunting Squirrel
and Lived Only a Few Hours—Sea
Island Cotton Crop a Failure, But
Best Corn Crop for Years.

Cal, Fla., Aug. 18.—Miss Alice Walker, aged 17 years, committed suicide here Saturday morning by shooting the top of her head off with a shot gun. Disappointment in love affairs is said to be the cause.

Frank Walker, a farmer of this section, while out squirrel hunting last Saturday was bitten by a large rattlesnake and died Sunday night at 12:30 o'clock. All that could be done gave the suffering man no relief.

The Sea Island cotton crop will be almost a failure in this section. The fruit is falling off in showers, half-grown bolls drying up and falling off. Extremely hot weather is supposed to be the cause of such falling off.

The corn crop is the largest for years. Some farmers say they have plenty to do them two years.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

"BLIND TIGER" AT CAPITOL.

Negro Porter Arrested Charged With Sale of Liquor.

Atlanta, Aug. 18.—Saying he had been stabbed in a room in the capitol by Thomas Bray, a porter in the office of Comptroller General William A. Wright, Arthur Collins, a negro, reported the matter to the police. Patrolmen Shaw and Knight went to the capitol from the corner of Decatur and Ivy streets, and, in addition to arresting Bray, turned up a blind tiger, which the latter is alleged to have operated in the building.

It seems that Bray and Collins, with another negro named Ed Thomas, who resides in the rear of 520 Peachtree street, had engaged for a considerable part of the afternoon in a game of craps on the lower floor of the capitol, Collins winning Bray's money. Hostilities broke out when the former bought a pint of liquor from the latter, and the two quarreled over the change from a bill. Bray made a lunge at Collins and stabbed him seriously with a long knife. Thomas is said to have interfered, and received a slash on the right hand. According to Bray, Thomas then knocked him down with a pair of knuckles.

Bray was charged with violating the law on the illegal possession and sale of liquor, and two cases of disorderly conduct were entered against him, calling for a bond of \$100 in each case.

The presence of a tiger in the capitol is probably the first on record. The officers failed to search the building for a supply of the fluid.

Disagreeable at Home.

Man and Girl Drown.

Wilmington Del., Aug. 18.—Clarence Dutton aged 25 years and Nellie Nickerson aged 20 years, both of Chester, Pa., were drowned at Bowers' beach, a summer resort on Delaware bay. Dutton, Miss Nickerson and three others had gone in bathing, and were carried beyond their depth by the treacherous current at this point. Three of the party were rescued, but Dutton and Miss Nickerson were swept into the Delaware bay.

Active at 87.

This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Sold by W. M. Johnson.

20,000 TELEGRAPH OPERATORS NEEDED

Young Men Prepare Yourselves for
Good Positions.

On account of the new eight-hour law passed by Congress in the interest of telegraphers, and also on account of so many new railroads being built and old lines extended, an unusual demand for operators has been created. Conservative estimates have placed the number of additional operators that will be required during the next ten months at approximately 20,000.

YOUNG MEN, NOW IS YOUR OPPORTUNITY! Enroll in our school NOW and in only four to six months we will have you qualified for splendid positions. Telegraph Operators receive from \$50.00 upwards. Our school has been established twenty years; its equipment is perfect; instruction thorough and practical; positions positively guaranteed our graduates. Board in Newnan is very cheap; the town is healthful and the people are cordial. Two Main Line Railroad Wires run into our school rooms. No other school in the United States has such up-to-date and practical facilities for the benefit of its students. Write at once for free, descriptive literature.

FLORIDA NEWS..

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as various diarrheas), bladder, uterus or other pelvic organs. Even in the chronic or inveterate stages of these affections it is often successful in affecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and irregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nerve. For weak worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulae of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines. The words of praise bestowed on the several ingredients entering into "Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

case, as after he was dead the coroner's examination of the body and letters found in the dead man's pockets gave his name as J. Wetherell. A sum of money in bank notes and silver, a pocket knife, several printer's rules and three pieces of tobacco were also removed from his clothes and taken in charge by Coroner Rowton, who turned the body over to an undertaker.—Palatka correspondent, Times-Union.

SUICIDE OR MURDER?

Druggist Montgomery, of Birmingham, Found Dead in Store. Birmingham, Ala., Aug. 18.—B. H. Montgomery, a well-known druggist, was found dead in his store at Gate City. He was lying face downward in a pool of blood, and it is yet undecided whether it was a case of suicide or whether the man was murdered. He had been missing since Friday, and the store was not opened Saturday.

A family living above the store noticed strong odors coming from the room below, and this evening decided to break down the doors. Mr. Montgomery lived in Woodlawn, and his son, Jack Montgomery, is professor of chemistry in the University of Mississippi.

To Pass Upon Differences.

Birmingham, Ala., Aug. 18.—Replying to a letter inclosing a petition signed by twenty thousand names of people of Birmingham district, the officials of the United Mine Workers of America in charge of the strike in this state, have signified their willingness to allow a committee on arbitration to pass on the differences that caused the strike at the Alabama coal mines.

Ten Years in Bed.

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." J. W. McCollum & Co.

To Provide For Transportation.

Birmingham, Ala., Aug. 18.—A mass meeting is scheduled in the Jewish synagogue to provide transportation and other means to fifty Jews who were brought to the district to work in the mines and who have quit because of the strike. This is the first incident in this section where Jews were placed at work in numbers in coal mines in the south.

Warning.

If you have kidney and bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. J. W. McCollum & Co.

THE STATE COLLEGE FOR WOMEN

Tallahassee, Fla., Aug. 18.—The State College for Women looks forward to next school year as a season of victorious achievements for her students. The new dormitory, which will accommodate one hundred and sixty girls, is finished. Handsome new furnishings, costing over \$4,000, will be put in soon. The parlors are to be set up in mission furniture, upholstered in finest leather. The reception rooms of East Hall will also be supplied with attractive new furniture. The many improvements now in progress on the campus will add greatly to the pleasing appearance of the grounds.

Although some of our ablest teachers will not return to us, their places are to be filled by teachers who have attained to remarkable success in their several lines of work. Prof. Buchlotz will be succeeded by Dr. C. J. Heatwole, a Virginian, who is a graduate of Peabody College, Nashville, and of Columbia University, N. Y. He has had wide experience as superintendent of schools and as a lecturer before teachers' institutes. At present he is principal of the Summer school at the University of Virginia.

Miss Mildred Dalzell of Florence, Ala., will have charge of the Department of Expression and Physical Culture. Miss Dalzell is a graduate of the University of Michigan and of the Northwestern University, and is widely known as a reader.

Our new Director of Music will be Miss Martha Cline, sister of Miss

Sarah Cline, our teacher of voice. For several years Miss Cline has been at the head of the Conservatory of Music in Little Rock, Ark. She is a graduate of the Cincinnati Conservatory, and has studied under Dr. Sherwood of Chicago. When we remember the fine training which our last year's voice class received from Miss Sarah Cline, we feel specially fortunate in adding her sister to our music faculty.

Miss Emma Hall Tarbet will come as teacher of pipe-organ and piano-forte. She is a graduate of Blackburn University, and of N. E. Conservatory of Music. She has studied in Boston and at the National Conservatory of Music, New York, and has had two years' private instruction under Dr. Louis Maas and Joseffy. Two years of additional study in Germany and Switzerland, with experience as teacher of music in several of the leading colleges of the United States, have prepared this lady well for the responsible position that she is to assume. Miss Tarbet is a fine performer on the pipe-organ.

Mrs. Florence Dillard Hequemboourg will have charge of the instruction in violin. She has studied under the masters in Boston, Cincinnati and New York, and under famous violinists in Berlin and Brussels. She has taught and concertized in New York, Washington City, and Richmond, Va.

The College, strengthened by its new equipments and its very able faculty, is prepared to offer most excellent opportunities for the education of Florida's young women.

TOOK WARRANT AND ESCAPED.

Alabama Man Ran a Winning Race for Georgia Soil.

Columbus, Aug. 17.—When Officer Kennington, of Girard, Ala., went to arrest Will Abney, a young man of that city, on a state charge Abney asked him for his authority.

The officer pulled out an imposing looking warrant and began to read, when Abney snatched it from his hand and made a break for liberty, succeeding in reaching the Georgia side after a spectacular race, and eventually made his escape.

Man Hooted the Idea.

New York Aug. 17.—Although Conrad teingruber laughed at the Christ hospital physicians in Jersey City who said that he would die in twenty-four hours from the effects of a bite from a dog, the man died. Steingruber said he was a disbeliever in hydrophobia and that he would be around again in a few days. He rapidly grew worse, and until he died his suffering was intense.

WILLIAMS MET AWFUL DEATH.

Fell on Circular Saw and Body was Cut Entirely in Two.

Columbus, Ga., Aug. 17.—R. M. Williams, aged 30 years, met a horrible death at C. C. Jordan's saw mill, near Crawford, Ala.

Williams was setting head blocks when the lever broke and he fell on the saw with the result that his body was cut entirely in two by the rapidly running saw. A wife and four little girls survive him.

Life Preserver Invented by Atlantan.

Atlanta, Aug. 17.—L. D. McDonald has returned to Atlanta from a visit to the city of Wilmington, N. C., where he had been on a visit to the seashore for the purpose of giving his new life preserver a thorough trial. The life preserver which was invented and patented by Mr. McDonald is something new, and decidedly unique. Mr. McDonald will either manufacture the preservers or dispose of the patent to some manufacturer.

Handcuffs Placed on Bride and Groom.

Pittsburg, Aug. 17.—Handcuffed together, Edward Saunders, of Rochester, N. Y., and his bride, who was Miss Maud Higgins of Pittsburg, were forced to stand in an ash wagon while the were hauled through the streets by jaking friends with numerous placards on the sides of the wagon. It was midnight when the handcuffs were unlocked. The wedding supper was cold when the sat down to it.

Women Refuse to Pay Fine.

Athens, Ga., Aug. 18.—It will be remembered that some time since Professor Bailey was publicly whipped by ten ladies of the town of Canon. A fine of \$25 each was assessed by the town of Canon against the ladies involved and Mrs. Kate Waldrep refused to pay it. She brought injunction proceedings to restrain the town from collecting this fine. The case has been heard by Judge Brax in this city and the injunction was ordered to hold until a jury could pass upon the merits of the case.

What a New Jersey Editor Says.

M. T. Lynch, editor of The Phillipsburg (N. J.) Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." J. W. McCollum & Co.

BRYAN SURE WINNER

So Opines Murphy, Leader of Tammany Hall.

DEMOCRACY IS GOING TO WIN

Says Bryan is Much Stronger in New York State Than He was in Former Years—Too Much Autocratic Rule and "Big Stick."

New York, Aug. 17.—Charles F. Murphy, leader of Tammany Hall, has given out an interview in which he declared that his view of the political situation in New York state is that "the democracy is going to win this year." Of Mr. Bryan the Tammany chieftain said:

"Mr. Bryan is much stronger in the state than he was either in 1896 or 1900. Why I don't exactly know yet,

CHARLES F. MURPHY.

but the fact remains that there is a variety of evidence on which to base belief in his increased popularity.

"One reason, I think, lies in dissatisfaction with Roosevelt and Rooseveltian policies—too much autocratic rule and swinging of the big stick. A great many men who sided with the republican party in the past will not do so this year. It means something when men like Judge Morgan J. O'Brien and Delancey Nicolli who opposed Bryan in the past are now going to vote for him."

Baby Morphine Fiends

Are made by all soothing syrups and baby medicines that contain opium and narcotics. McGee's Baby Elixir contains no injurious or narcotic drugs of any kind. A sure and safe cure for disordered stomachs, bowels and fretfulness—splendid for teething infants. Sold by W. M. Johnson.

Was Shot to Pieces.

Madison, Fla., Aug. 18.—News has reached here that Nathan Sweet, a negro, was shot beyond recognition about five miles east of this place. He was killed by unknown parties. The cause of the shooting is unknown.

Orino Laxative Fruit Syrup is sold under a positive guarantee to cure constipation, sick headache, stomach trouble, or any form of indigestion. If it fails, the manufacturers refund your money. What more can anyone do? J. W. McCollum & Co.

New Motor Cycle Record. Columbus, Ga., Aug. 18.—N. A. Ledbetter, of this city, established a new motor cycle record between Columbus and Atlanta, having made the 120 miles in five hours.

Itching, bleeding, protruding or blind piles yield to Doan's Ointment. Chronic cases soon relieved, finally cured. Druggists all sell it.

Oak Halls Had Large Crowd Rooters Accompanying Them.

The Oak Halls departed yesterday morning for the battlefield of Ferdinand, with a large and enthusiastic crowd of local rooters, which was largely augmented by people from Archer and all along the line.

The train left this city with two coaches filled, but a large percentage, fully one-half, were colored people who simply went along to be the "scussion train."

From Gainesville proper there were about one hundred and fifty tickets purchased, and the greater portion of this number were white people, including many ladies.

Was Not Employed by Mrs. Pitts.

Mrs. T. W. Pitts desires that The Sun announce that she did not employ the colored man, Robert Sims, employed to do the work for her when she was moving, but that he was sub-employee for one Carter, and she and her daughter did a deal of the work of the old day to relieve him, as she at once that he was unable to perform duties that the contractor had expected out for him. We only publish the report as it was given, and to see wherein it was any reflection on the lady.

Archer Victorious.

In a hotly contested game at above place yesterday between Waldo team and the Archer was the latter won by a score of 19 to 10. The attendance was large for little town, and Waldo had plenty of company along with them to cheer them up.

A WARNING

I have learned that certain persons are representing themselves as agents, and taking orders for pictures, claiming I will finish them in some cases the pictures given have been lost—pictures of dear friends which cannot be replaced. I have agents, never did, and never will I deal directly with my patrons for all work. I cannot afford to pay agent out of the prices I charge for the high-grade work I do. Being enlarging to me and you are not insured against loss of the original but will have a guarantee of a likeness and an artistic finish.
